Senior Prophecy

(From a Freshman's Point of View)

TEN YEARS FROM NOW

As we gaze into the glass crystal, we see a large theater. After inquiring, we discover that the singing star of the evening is Audrey Baker. She is now a great success.

While strolling thru a large art gallery, we find "Dickie" Ellis putting the finishing touches on her latest masterpiece. She now owns a large studio.

We see Patti Fulton loading the assignments onto her English students. After receiving such heavy assignments in high school she now finds pleasure in returning these assignments.

The "wander lust" has finally caught up with Jim Kessler. He is wandering from one town to another and working at odd jobs. His wife is hoping that he will soon settle down.

While concentrating on the crystal ball, we hear a loud scream. You're right, Dick Kessler is now busy torturing his patients, since he is a prosperous dentist in a small town in Kentucky.

"Pat" Ludden is now touring the country on a large advertising campaign. Her name is now Sturms instead of Ludden.

We find Jerry Lynch in a large dancing studio, where she teaches over 200 pupils weekly. Her lessons now includes adults as well as children.

As we gaze into the glass crystal we find ourselves entangled with three small children. Mary McAndrew has now given up her career to that of keeping house.

Jim Smith is now the president of a large toothpick manufacturing company. He has a large, prosperous business. On important occasions, Jim gives away a box of toothpicks instead of a cigar.

Jeanne Stevens and Jim Witter have now gone into the airplane business together. Jim as the pilot and Jeanne as the hostess. They are helping to induce air travel.

The crystal globe shows us a large hospital. Doris VanCuren is very busy helping to soothe the patients. She is now the head nurse.

Karl Weber is the owner of a large farm, with several hired men working for him.

Doris Wintemberg is now working in the office of Jim Smith's toothpick company as secretary. She is planning to retire shortly for reasons known to her friends.

Rebecca Foster has changed her mind and is now a housekeeper. In her opinion, it is all for the best.

"Essie" Temple is now traveling in all parts of the world. Her work is studying the ways of foreign people. Her home, however, is still in Andover.

As the images in our crystal globe begin to disappear, we realize that probably most of these things may never really occur. They are, after all, only a Freshman's point of view.

Camera Club Enjoys Skating Party

Last Thursday night, May 29, the Camera Club enjoyed a skating party at Sloan's Funcrest rink in Wellsville. The bus left the school at 7:45.

Mr. Reil and Mr. Bronson acted as chaperones. Despite the bumpy road Mr. Gleason drove the bus over, a fine time was enjoyed by all who skated.

Senior Interview

This week, as I was trying to make up my mind as to which senior to interview, I met a senior with dark hair in the hall and immediately decided her interview would prove interesting.

As you might guess, she is Miss Audrey Jean Baker, prominent musician of ACS. Audrey was born in Andover May 22, 1930, so she is at the ancient age of 17 today.

Several of Audrey's favorites are:

Food: Fish (not literally).
Color: Blue.
Movie: "I've Always Loved You."
Actor: Robert Mitchum.
Actress: Bette Davis.
Book: A cross between "A Piece of Mind" and "A Magnificent Obscession."
Author: Lloyd Douglas.
Pet peeve: Sarcastic people.

Audrey finds quite a bit of enjoyment in writing poetry and songs. She is attending Fredonia College for further instruction in music next fall, and will study to be a music instructor in public schools, so we wish her the best of luck and success in her undertakings. SE

Annual Semi-Formal After Alumni Banquet

The annual spring prom, sponsored by the Junior and Senior classes of ACS, will follow the Alumni Banquet on the Monday evening of June 23rd at ACS.

The banquet will be earlier in the evening and the semi-formal between the usual hours of 9 to 1 with Jim Mulholland's orchestra doing the honors for each event.

Faculty and alumni are cordially invited to the banquet of which the Seniors are guests and the doors of Andover Central are opened and will welcome students, townspeople and those not living in our community to our annual prom.

Further preparations, such as the dance theme and ticket selling, will be announced later but, once again, we want to stress the claiming of this date and ask everyone to tuck it in a safe place in his memory to attend the Junior-Senior semi-formal. PET

ACS Observes Senior Day

Once again ACS will observe Senior Day, Monday, June 9th, under the direction of the Senior Class of 1947. It will be an exciting day for all I'm sure—the Seniors this year are such a remarkable class! The usual procedure of traditional activities will take place with moving-up assembly program, candlelight ceremony, class will and prophecy read and the Seniors, all 16, presiding over all classes in high school.

In observance of Senior Day, the Junior-Senior banquet will be held Monday evening, concluding an eventful Senior Day for all. AJB

Forever Ambush

We hear that Rosemary Mead's birthday party was a success. All who attended had a good time.

Bob Gorsuch still remains true to "Barb" Wintemberg as he sat alone on the way home.

The Sophomores welcomed back an old classmate, Wayne Sherwood, Monday.

Those whistle bracelets the girls wore at Rosemary Mead's birthday party nearly drove the boys mad.

We see "Mick" Baker is on the lookout for a certain eighth grade girl. How about it, Aggie?

A certain eighth grade girl was disappointed because "Dick" Hancock didn't go to the Camera Club skating party.

How did Donna Nobles and "Eadie" Roden beat the rest of the party out to the bus Thursday night?

We see Wayne Sherwood was here visiting the school. No wonder all the girls stared at him.

What's the matter with your knee, Maxine Baker? Too much skating?

We see that Louise Loucks and "Charlie" Dougherty are still going strong.

Has anybody heard Janet Hall mention Keith lately?

Who was the blond you were skating with Saturday night, "Barney" Bostick? Anyone we know? PB-DN

ACS

Oswego, another popular summer vacation spot in New York State, was the first fresh water port established in the United States. It includes Fort Ontario built in 1755 and the oldest garrisoned post in the Nation.

CHIT-CHAT

Could be that Larry Hoyt realizes Regents are near? He's getting some chemistry experiments finished.

What happened to the "Old Maid Society" of ACS? Certainly we aren't going to let any mere male interfere, are we? Nevertheless, our "Society" seems to have taken a considerable drop to zero, no less!

We see Audrey can really stand up on skates—pretty well! it seems his name was Harold.

It seems Rich goes for Donna Nobles' girl friend! As far as that goes it looks like he isn't the only one!

Congratulations, girls of Andover High, you are now young ladies. Oh, you wonder why? Well, don't you recall what the Sergeant Monday morning said about the nice looking young ladies in ACS? Boys, hold the door open, please!

Why couldn't Madge get Essie to go skating Thursday night? Essie claims she was saving Saturday night for the rink—and besides she had a chance to get some outside help on a pesty subject. A good cause for a question mark, what?

A big surprise! Josie (Jo Ann) is still going with a certain handsome Ray Smith from Wellsville. Gee! But isn't love grand?

Johnny Fisher, don't look so worried! The way you leaf the pages for study review purposes, one would think you hadn't studied all year.

From all the quiet remarks, Rose Mary Mead's birthday party last Saturday night was quite a success. Happy birthday, Rose Mary!

We understand that gallant Prince Ray Smith has already done the chivalrous honor of asking Princess Beverly Clair to King's Junior-Senior Ball. Yes, that ball is not too far away, boys—you had better start saving your money to take that certain gal to the big event of the year.

Fran Baker, we observed, enjoys skating the Moonlight—Could it be that a "certain Al from Canisteo" was skating with her?

Mr. Conde seems to be having a difficult time. The music department is giving him competition in teaching the "Problems of Democracy Class" second period in the morning. Be patient, Mr. Conde, there are only a few days left of school anyway.

Wouldn't someone please pull Dickie Ellis down to our level? We just wanna visit with her but she's walking on clouds and we can't reach her. Gee, thanks!

For any information on a certain Dick Sturm—you see—a—now, who is it? Oh, yes, our own Pat Ludden, right over there!

We betcha two bits someone will give Doris VanCuren a beautiful imitation lizard for her lapel for graduation as a discouager for the live thing she wore. Who wants to take us up on it?

Lila, Doris and Jeanne, we see, have been busy studying for the June examinations and Regents. It's hard to believe, but it's true!

Well, guess that is all for this time. We hope you all have good luck with your examinations and Regents and that soon we shall see a happy smile on every face. AJB-PET

"Johnny, Willie says you threw him down and jumped on him with both feet."

"Well, ma, I was just playin'."

"What sort of play do you call that?"

"Foot-ball."

Canaseraga Downs ACS 4-2

In sort of a slow game played on a poor diamond at Canaseraga Tuesday, June 3rd, the local boys were again defeated on errors, dropping the game 4-2. It wasn't much of a game, but there was some fair pitching and fielding. Next week the team averages will be in the paper.

Do You Know How to Study?

(From one Grind to Another)

by Norma Perry

Let us face it. Exams are just around the corner. Reach out your hand and they will jump out and say Boo! You will not want to meet them in the dark. I know you have an iron constitution, but they might scare you out of a year's growth.

For fortification against such ghostly ghouls, you might begin with a load of books. Of course, books are like a little boy's whistle in the dark, as he is going past the graveyard—if you do not look inside them. So forget the baseball game and the gang at the soda fountain.

Are you in the house? Well, shut the door firmly and it might better be the door of your room. Quiet please! Genius at work! No day-dreaming! Pull down the shades if it will help you concentrate. Though you did not go to that baseball game, don't picture yourself as a self-sacrificing martyr. After all, you want to meet those exams in broad daylight.

Certain times for certain subjects, you know. Get the hardest ones over first. It relieves your conscience. And while you sit there, it might be well to remember that if you had been doing those algebra problems daily as they were assigned, you would not need to be cramming while the gang is out on the baseball field in the spring sunshine. Take it from the voice of experience.

Teachers Plan Vacations

Towards the end of the school year, we all make some sort of plan for spending our summer vacation. Our faculty members have made plans too, and here are some of them:

Mrs. McFadden plans to spend her summer doing graduate work at Alfred University.

Miss Boyd is also going to continue her education this summer by attending summer school in Potsdam for six weeks, then she plans to spend the remainder of the summer at a camp on Lake Champlain with her parents.

Miss McCrea has no future plans other than getting married and living in Troy, N. Y., this summer.

Mr. Carmody intends to play with the dance band, "The Stardusters" during the summer, months, while staying around home.

Mrs. Gath is not going any place special, or doing anything out of the ordinary except keep house.

When we confronted Mr. Bronson with the question, his reply was: "What vacation? I'm on the job thruout the summer months. I'll be going to the Adirondacks with the F.F.A. boys for a week, but that's in the line of duty."

Miss Recktenwald plans to visit her brother in Pasadena, Calif., for at least a month.

Erie RR Sponsors Safety Assembly

An assembly on railroad safety was presented to the students of Andover Central School Monday morning, June 2nd by two representatives of the Erie railroad.

A picture was shown of an accident taken from their accident files of a few years ago, which happened out in Indiana. This picture clearly showed as explained by Lieutenant Carry, the dangers of children both young and old, playing near railroad cars and in the railroad yards.

Students were urged to cooperate with the railroad in trying to eliminate all accidents on the railroads. RMB

How He Tells Time

"My father," said the small boy to the woman who was calling on his mother, "is a great man. He knows what time it is without even looking at his watch."

"What do you mean, Tommy?" asked the visitor.

"Oh, when I holler out and ask him what time it is in the morning, he always says it's time to get up. And when I ask him what time it is in the evening, he always says 'Time to get to bed, Tommy'."
