by which it had been passed. He coming winter to have a modification gladdest of sounds to him; his old execution was only an experiment, in this respect. and that we are in the infancy of our knowledge of electricity. He spoke From the New York World.

Kemmier in His Cell.

A correspondent of the New York Sun, in the course of an article on har Prison, gives the following interesting information in regard to the

Kemmler's cell is apart from that of the rest of the convicts. It is seep him. He was brought secretly and curled feathers will supply the into the prison, and he is hidden half lights, and pier-glasses, consoles there is an iron cage. In this cage is a bed, where he sleeps at night. The death-watch was set in that room | from the moment he entered it. Night and day there is a guard in Kemmler left alone. It would be impossible for him to commit suicide. At least Warden Durston is determined he shall not have the oppor-

tunity to end his life. Kemmler, er in living rooms, upper chambers in Kansas, says, Ideal Tooth Powder is in my estimation, just what its name or along the landings of the stair-ith each two bottles. Price 25 cents grown fat since he was brought into color and seclusion. The top floor the prison. It does not seem to diswill be turned into a ball-room if Mr. turb his nerves that the State in- Cleveland decides to purchase the tends to make its first experiment in house.

electrical execution in his case. The Drunkard's Plight. "I suppose they have got to kill some one," he said, recently, "and From the Contemporary Review.
