

THE ANDOVER NEWS.

VOL. VI

ANDOVER, ALLEGANY COUNTY, N. Y., JAN. 18, 1893.

NO. 21.

MRS. ELMIRA HATCH.

HEART DISEASE 20 YEARS.

Dr. Miles Medical Co., Elkhart, Ind.

Dear Sirs: For 20 years I was troubled with heart disease. Would frequently have fainting spells and smothering at night. Had to sit up or get out of bed to breathe. Had pain in my left side and back most of the time; at last I became despondent. I was very nervous and nearly worn out. The least excitement would cause me to faint. I was also much troubled with fluttering. For the last fifteen years I could not sleep on my left side or back until I began taking your *Small Heart Cure*. I had not taken it very long until I felt much better, and I can now sleep on either side or back without the least discomfort. I have no pain, smothering, dropsy, no wind on stomach or other disagreeable symptoms. I am able to do all my own housework without any trouble and consider myself cured.

Elkhart, Ind., 1892. MRS. ELMIRA HATCH.

It is now four years since I have taken any medicine. Am in better health than I have been in 40 years. I honestly believe that *Dr. Miles' New Heart Cure* saved my life and made me a well woman. I am now 62 years of age, and am able to do a good day's work. May 20th, 1892. MRS. ELMIRA HATCH.

SATISFACTION GUARANTEED OR MONEY RETURNED.

CURED

THOUSANDS

NEVER BEEN DISAPPOINTED.

As a general family remedy for dyspepsia, Torpid Liver, Constipation, etc., I have tried everything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels.

CASTORIA

For Infants and Children.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. Auer, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MANTON, D. D., New York City, Late Pastor, Bloomingdale Reformed Church.

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results." EDWIN F. PARKER, M. D., "The Winthrop," 125th Street and 7th Ave., New York City.

THE CASTORIA COMPANY, 27 NASSAU ST., NEW YORK.

How's Your Liver?

Is the Oriental salutation, knowing the good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headaches ensue; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. *Simmons' Liver Regulator* has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

The Woman's Christian Temperance Union of Andover meets the first and third Thursday in each month.

Compare the following figures and then decide whether from a financial point of view the vital question before the American people to-day is the tariff or the drink. Annual drink bill, \$1,200,000,000. Aggregate capital of the national banks of the U. S. in '91, \$660,108,261. Total collections of tariff revenue from imports in 1891, \$219,522,205. Total ordinary expenses of the U. S. government for all purposes in 1891, \$365,773,905. Total cost of maintaining the War and Navy departments of the government in 1891, \$74,833,961.

"If men would enthuse as easily in religion as they do in politics, how quick the devil would begin to run." —*Rain's Horn.*

Senator Mitchell of Oregon, says: "I am heartily in favor of an amendment to the constitution giving women the right to vote."

Representative Boutelle of Maine, says: "I believe in woman suffrage. I never could see the logic of the reasoning which confines the suffrage to men. It seems to me it would be far better on every account if the intelligence of women were allowed to have its proper share of influence in the decision of public questions. Why an ignorant foreigner, unfamiliar with our institutions, and possessing no stake in their permanency, should be permitted to vote, while women, who are bound by thousands of ties to the soil of their country, should be denied the privilege, is one of the unexplainable things of politics. The conservative and safe element in the United States ought to be reinforced by the assistance of the women, who are, in the nature of things, on the side of law and order."

INDEPENDENCE NEWS.

But isn't it cold!

Rev. H. D. Clarke attended the S. D. B. quarterly meeting at Shingle House, Pa., last week.

Comrade and Mrs. H. C. Coleman of Alfred Centre, were in town and attended service at the S. D. B. church Saturday.

In the absence of the pastor, Mr. Lewis Livermore conducted the services at the S. D. B. church Seventh Day.

The north and south roads are so badly drifted it is something of a job to get to and from Andover and Whitesville.

A number of our young people made a flying visit to Mr. and Mrs. Aaron G. Crittenden of Wellsville, Saturday night to test the sleighing, returning home in the "we sma' hours ayont the twal."

An Indian show will give exhibitions in the public hall, Whitesville, for two weeks, commencing Tuesday evening this week. Admission free every evening except Wednesday and Saturdays. Want your scalp lock renovated?

GUMPTION.

Farmers' Club Vice Presidents.

In the report of the annual meeting of the Farmers' Club, published in last week's News, it was stated that the President had re-appointed the town vice presidents of last year. It was afterwards decided to make new appointments, which are as follows:

Almond, S. S. Karr; Alra, G. S. Wilcox; Alfred, Chas. Stillman; Andover, Uriah Davis; Angelica, D. C. Grunder; Amity, A. J. McNett; Birdsall, Henry Newton; Burns, Fay Miller; Belfast, E. S. Bartlett; Bolivar, C. B. Davis; Centerville, John Metcalf; Clarksville, M. M. Congdon; Canadea, Cassius McIntosh; Hume, Geo. Beardsley; Rushford, J. S. Van Dusen; New Hudson, L. D. Stowell; Cuba, C. Morgan; Friendship, R. E. Middaugh; Wellsville, W. Q. Browning; Independence, T. Cobb; Granger, G. H. White; Grove, C. K. Bacon; Allen, E. W. Botsford; Willing, L. D. Witter; Wirt, Dennis Barnes; West Almond, Wm. Mackley; York, J. E. Middaugh; Ward, James Farwell; Genesee, R. Coon.

VICINITY NEWS.

A Few Things That Have Happened Within Two or Three Hundred Miles of Here.

A canning factory may soon be built at Cuba. The Board of Trade has the matter under consideration.

Miss Laura Gleason of Hornellsville has lately fallen heir to more than \$100,000 by the death of Lucius Gleason, the millionaire banker of Syracuse.

Commissioner Pollard was in Wellsville Saturday, arranging for a session of the Teachers' Association soon to be held in the southern district of the county. —*Democrat.*

The Hon. Joseph Cory of Almond, died at his home last week Tuesday, at the age of 90 years. He represented this county in the Assembly a number of terms. He leaves three daughters and two sons.

Anson C. Hall died at his home in Belmont last Wednesday, aged 73 years. He once held the office of Superintendent of the Poor of this county. He was a good citizen, and a prominent Mason.

There is no change in the matter of the striking boiler makers at the Brooks Locomotive Works in Dunkirk. The men have won the sympathy of the public by their orderly conduct. They still refuse to work under the contractors, and have posted notices asking boiler makers to stay away from Dunkirk during the strike.

Articles of incorporation were recently signed organizing the Morse & Willis Manufacturing Co., which is to succeed the firm of Morse & Willis at Friendship, and enlarge the business at that place. The corporation has a paid up capital of \$15,000, and will engage in the manufacture of cheese boxes, fruit barrels, wooden ware, etc.

Preparations are being made to begin running trains over the old Lackawanna & Southwestern railroad. New locomotives have been bought. A corps of engineers is surveying the narrow gauge line from Angelica to Olean, preparatory to making it a standard gauge as soon as the weather will allow. Trains will be running from Angelica to Swains in a few days.

We understand that ex-County Clerk Wm. E. Smith is negotiating for the purchase of the Belmont Dispatch. We don't know of anyone whom we would so cheerfully welcome to the ranks of the publishers of Allegany and a diet of codfish and corn dodger as this self-same Bill Smith. Come to judgment, William! Come to judgment! —*Wellsville Democrat.*

Fred Hathaway of Cameron found three full grown deer in the barnyard one day last week with his cattle. They had been driven from the mountains during the night by the severe storm. With the assistance of some neighbors he succeeded in driving them into the barn, where they are now captives. Two hunters who were following on the deer trail nearly perished in the storm. They were found in the woods, nearly dead by some farmers.

White Bronze Monuments.

PRINCETON, ILL., Sept. 12, 1892.

MONUMENTAL BRONZE CO. Gentlemen: After visiting several cemeteries in this county and paying special attention to marble, granite and Scotch grey, I find that all work of these varieties, that has been placed in the different cities of the dead over five years, begins to show cracks, iron rust and flakes. In fact it will pay any person who intends to purchase a memorial to go and inspect for themselves, and I will assure them that they will conclude that the placing of White Bronze will appear more pleasant and will give them a feeling of satisfaction, as they can then visit the resting place of their respected dead and see a memorial that will be the self-same thing in ten years, yes fifty years, and, as it seems to me, when every marble and granite or stone of any kind is honeycombed, disintegrated and all crumbled to earth. It has been my lot to assist in replacing in the last 30 years, from a heavy marble slab to a granite over my father's grave in Pennsylvania, and from a four inch thick marble slab to a Scotch grey over my wife's father's grave. The latter ones have not been placed 12 years as yet. Both are cracked and in bad condition already. I have noticed cracks in monuments that have not been up so long, that have from three to forty cracks in them, and the pillars will soon have to be replaced or the whole structure will crumble. This is work that cost big money. I would advise all purchasers to go and examine carefully and be sure and buy a White Bronze memorial, for there is nothing taken from Nature that will not crumble, decay and disintegrate.

I am for White Bronze as a memorial, and at the end of my time here I hope to have a Cavalier on his Charger for.

Respectfully yours,

C. H. GIBONS.

White Bronze Monuments are for sale by J. A. Robinson, Andover, N. Y.

J. W. Wood Seriously Injured.

J. W. Wood of Arkport, son of N. P. Wood of Andover, met with a serious mishap in Hornellsville Monday, the particulars of which we learn from the Hornellsville Times, as follows:

"John Wood, a blacksmith in the employ of the Crittenden Wagon Works at Arkport, came to the city yesterday on business for that establishment, by the C. N. Y. & W. road. On Seneca street, at the corner of Fulton, there was a hole in the walk caused by a broken or missing plank. Mr. Wood slipped at this point and fell, striking in the opening with his back against the edge of a plank and on the back of his head.

"He was accompanied by an acquaintance named Wilson, who attempted to help him to his feet, when he found that Wood was unconscious. O'Donnell's express wagon was passing and Wood was placed therein and taken to the home of his brother-in-law, John Hastings, on West Genesee street.

"Physicians were then summoned, who made examinations to ascertain the extent of his injuries. It was reported that there was a dislocation of the spinal column, but this is not true, although there is no power of motion and no sensation in the lower extremities except in one leg below the knee. The physicians consider the injury a serious one."

A. P. Wood, a brother, and Mrs. Ella Seaman, sister of the injured man, went to Hornellsville Monday evening, returning yesterday. When they left for home it was impossible for the physicians to determine the extent or the probable outcome of the injuries.

A letter received this afternoon by Mr. N. P. Wood states that no further unfavorable symptoms have been noticed, and the injured man appears no worse than he was yesterday.

Regents' Examination.

Regents' examination will be held in the Academic Department of the Andover Union School, commencing Jan. 24 at 9 a. m. as follows: Tuesday a. m., Arithmetic and Ethics; Tuesday p. m., Phys. Geography, Geography, Civics and Economics; Wednesday a. m., Eng. Elementary, Algebra, Plane Geometry and Drawing; Wednesday p. m., Spelling, Eng. Composition, Eng. Literature, Physiology and Hygiene; Thursday a. m., Trigonometry, U. S. History; Thursday p. m., Latin, first year; Friday p. m., Solid Geometry.

The new term will open the following week, at which time a class in book keeping and also one chemistry will be commenced. Those desiring to enter the school the coming term or who desire to take special work in the above named subjects should consult the principal at once.

Victor Has No Fire Protection.

VICTOR, N. Y., Jan. 19.—Fire was discovered in the stone store of Gallup & Son on Main street at 6 a. m. and before aid could be secured the whole building was a mass of flames with a brisk wind which it was thought would sweep the whole north side of Main street, all the stores and dwellings being emptied and the event awaited. A bucket line was formed and the fire was confined to the store and Mrs. Gallup's house. Other property on the street suffered somewhat. The town has no fire protection.

A Few Figures in Oil.

Comparative statistics recently gathered show the change that has come over the oil field and the development which has taken place in south western territory. The figures are based upon pipe line reports. In 1881, 89 per cent. of the entire production came from the Bradford and Allegany fields, while in 1892 these fields supplied 15 per cent. The two great black sand fields appear to be at the lowest ebb of their production. No attempt is made, it is said, to revive the waning yield of the old wells, and if there was any great demand for second-hand oil well supplies, large numbers of them which are now being operated at no profit, would be pulled out and abandoned.

In 1892 the Bradford field supplied a daily average of 11,668 barrels, the Allegany field 5,482 and the other districts together 75,362. In 1881 the figures were: Bradford 70,811; Allegany 1700; all other districts 8,789. Bradford for a few months in its early days had a daily production of 100,000 barrels, it is estimated, and some of it was allowed to waste for lack of means of caring for it all.
