MRS. ELMIRA HATCH.

HEART DISEASE 20 YEARS.

Dr. Miles Medical Co., Elkhart, Ind.

DEAR SIR: For 20 years I was troubled with heart disease. Would frequently have falling spells and smothering at night. Had to sit up or get out of bed to breathe. Had pain in my left side and back most of the time; at last I became despondent. I was very nervous and nearly worn out. The least excitement would cause me to faint. I was also much troubled with

THOUSANDS

of others who are troubled with heart disease. For the last fifteen years I could not sleep on my left side or back until I began taking your *Heart Cure*. I had not taken it very long until I felt much better, and I can now sleep on either side or back without the least discomfort. I have no pain, smothering, dropsy, no wind on stomach or other disagreeable symptoms. I am able to do all my own housework without any trouble and consider myself cured.

Elkhart, Ind., 1893. MRS. ELMIRA HATCH.
It is now four years since I have taken any medicine. Am in better health than I have been in 40 years. I honestly believe that *Dr. Miles' New Heart Cure* saved my life and made me a well woman. I am now 62 years of age, and am able to do a good day's work.
May 20th, 1892. MRS. ELMIRA HATCH.

The Woman's Christian Temperance Union of Andover meets the first and third Thursday in each month.

Several of the large railroad systems of the country have inaugurated a temperance reform, insisting that all train employees shall be abstainers. A large number of men have been discharged recently on their refusal to be total abstainers. The authorities argue that even if a man is sober during his hours of duty, if he overdrinks one day he cannot as safely perform his duty the next, in a position where human life depends upon a clear head and a steady hand. Hence the railway management hold that the conductor, engineer, firemen, brakemen, train dispatcher and telegraph operator must at all times be sober.

Rev. D. C. Milner, editor of the *Mid-Continent*, Manhattan, Kan., writes to the N. Y. *Independent* that the reports widely circulated through the press to the effect that the newly elected officials would connive at the violation of the prohibitory law are false. He says: "The signs of the times indicate that the people of the State, after 12 years of experience, have no thought of yielding to the demands of the enemies of this great reform. We believe prohibition is in Kansas to stay."

Our life is so straitened down here altogether that I think that all things which make life's path easier, and the dark river brighter, and the beyond clearer, should be passed along like bread at sacrament.—*Lady Henry Somerset, in memorial address for Madam Willard.*

Miss Mary E. Garrett, a daughter of Robert Garrett, late president of the Baltimore & Ohio R. R. Co., last week made the gift of \$306,977 to the John Hopkins University, to complete an endowment fund of \$500,000 necessary to establish a medical school to be attached to that institution, which women could enter on the same footing as men and graduate with the same privileges.

A novel race can be seen in a Connecticut city, a school house running after a hotel. A wealthy citizen and liquor dealer built a large hotel with bar attached. The temperance men put a little school house on wheels and ran it near the hotel to stop the license under the church and school house law. The owner says he can put his hotel on wheels too. Education driving off the liquor traffic!

R. A. Pease Seriously Ill.

Mr. R. A. Pease has been seriously ill for several days past. He has been troubled for about three months with a sore toe, caused by an ingrowing nail. Recently the foot and leg began to swell, and his physician decided that poison from the afflicted member was working into the system. The toe was amputated by Dr. Comstock a few days ago, but the swelling had extended nearly to the hips, and the pain was intense. Within the past few days, however, there are symptoms of improvement, and it is hoped the worst is now over.

Died.

Mrs. Lucinda M. McCann died at her home in this village Thursday, Feb. 2, 1893, aged 75 years. She had been in ill health for some time, and had been confined to her bed several weeks. Toward the last she sustained a stroke of paralysis, which hastened her death. The funeral services were held Saturday, Rev. G. W. Gibson officiating. The burial was at Fulmer Valley. The deceased leaves a son and daughter, A. A. McCann of Andover and Mrs. E. E. Crandall of Belmont. Mrs. McCann was an earnest christian, and had been a member of the M. E. church for more than half a century.

Levi W. Dodge died at his home near this village Tuesday morning, Feb. 7, 1893, aged 68 years. The disease was intestinal catarrh, from which Mr. Dodge has long been a sufferer. The funeral services will be held at the house to-morrow, (Thursday) at two o'clock p. m. Mr. Dodge was one of Andover's best and most highly respected citizens, and his death will be regretted by a very large circle of friends and acquaintances. He leaves a wife and three children. William, Alfred and Mrs. Geo. W. Green. Mr. Dodge was a charter member of Seaman Post No. 481, G. A. R. and is the first member of this Post, to be taken away since organization about nine years ago. A most remarkable fact.

Mary Ann Boody was found frozen and suffering from a stroke of paralysis near her home in Medina Sunday morning. How long she had lain there can only be surmised, as she lived alone and had not been seen by her neighbors for some days. Both of her legs were frozen nearly to the knee, and one of her hands was frozen. The probabilities are that she was stricken with paralysis while she was going to her barn, and lay helpless in the bitter cold until she was found. She will probably die.
