## "WOMEN'S RIGHTS."

Some one has said that, notwithstanding the great discoveries of recent years, which have revolutionized the life of all civilized nations on its material side, the greatest discovery of the nineteenth-century is—woman. There is truth in the remark. What women were in the eighteenth century is revealed to us by the writings of that time. As one compares woman's social and intellectual and financial status a hundred years ago and at the present day, it becomes evident that the progress of the race has been largely on the feminine side.

It has been entirely within this century that women have acquired separate legal rights. Married women, until half a century ago, had scarcely any property rights at law. Now they are on a full equality with their husbands in all, or nearly all, of our States. In many States women have the suffrage at school elections, in some at municipal elections, and in one at all elections whatsoever. Probably the greatest change in woman's condition, however, has been the opening of scores of avenues of employment that formerly were closed. Even 50 years ago the women who earned their living in any public employment were exceedingly few. Now they number thousands; and it is counted no derogation in this country, from a woman's social position, that she does earn her own living. We have women artists, women writers, and even reporters and editors and composers; we have women architects and doctors and lawyers and ministers. Almost every avenue of intellectual work is now open to women on equal terms with men.

It is a fact worthy of note that women are faithful and painstaking in whatever branch of professional or manual labor they engage. As a rule they give closer attention to business than do men. Any person who has ever had occasion to employ women knows this. It is probably the secret of their great success in coming to the front so rapidly. If you hire a woman to wait upon customers, write, set type, sew, or do either of the thousand and one things that women are capable of doing, you are reasonably sure that she will give the work her undivided attention during the hours devoted to business. This does not imply that men are shiftless and lazy, but we believe it is a fact that a hundred men will need watching a little closer than the same number of women.

Just now the women of the United States are making special effort to secure unto themselves the elective franchise. They are agitating the matter so persistently and upon apparently such equitable grounds that there is very little doubt of the ultimate success of their battle. No reason can be given for withholding the ballot from women except that they are women, and their cause is daily gaining converts from the ranks of thinking men. The late Benjamin Butler long held that the 14th and 15th amendments to the constitution of the United States actually gave women the right to vote. The clauses upon which he based his opinion are as follows:

XIVth amendment: "All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States wherein they reside."

XVth amendment: "The right of citizens of the United States to vote shall not be denied or abridged by the United States or any State on account of race, color, or previous condition of servitude."

One of the chief hindrances to the cause of woman suffrage is the fact that the franchise must be granted to women voluntarily by the men.

Those most interested having no objection, the matter was referred to the committee on the subject.

a vote taken upon the question to-day would reveal surprising strength for the movement, if, indeed, the project were not actually carried.

All that our female friends have to do is to "keep everlastingly at it." Success in this (as in advertising) is sure to come.

## LATE REGENTS' EXAMINATION.

Prof. Armstrong Gives Many Interesting Facts in Connection Therewith.

Still believing that our patrons are quite as anxious as our pupils to know the result of our Regents' examination, I must again tax the generosity of the News for space in which to make a report of the examination held Jan. 23-27, 1893. As a result of this examination, the school is entitled to 26 state certificates; 13 of which are preliminary, 12 advanced and one English-Mathematical Diploma. Below I give the names of certificates earned, followed by the names of students who are entitled to the same:

English Mathematical Diploma—John C. Hoyt.

Forty Count Certificate—Volney McCann.

Junior Academic Certificates—Grace Hardy, Benj. Crandall, Benj. Barney.

Junior Academic Certificates—Grace Hardy, Benj. Crandall, Celia Patten, Maude Williamson, Jennie Owen, Josie Sackett, Clayton Cunningham, Lena Brundage.

Preliminary—Mary Cannon, Maude Williamson, Jennie Owen, Josie Sackett, Clayton Cunningham, Ella M. Crandall, Lida Cook, Mary Snyder, Ella Kemp, Samuel Clark, Jennie Fosbury, Edith Hartman, Angie Barney.

Besides the above, the following students passed in one or more subjects:

Reading—Sarah Barney, Bessie Bullard, Elta Driscoll, Carrie Hinchey, Rena Slocum, Arthur O'Leary, Ruth Randolph, Clate Cunningham, Sam. Clark, Angie Barney, Edith Hartman, Agnes Parker, Mary Snyder, Ella Kemp.

Spelling—Mabel Bines, Clara Comstock, Anna Deane, Rose Patten, Jennie Shourds, Allen Corwin, Dennis Doran, Frank Mead.

Elementary English—Sarah Barney, Bessie Bullard, Elta Driscoll, Mamie Deane, Bessie Delaney, Carrie Hinchey, Mae Kemp, Myrtle Preston, Jennie Shourds, Rena Slocum, John Carr, George Cochran, Arthur O'Leary, Samuel Clark.

English Composition—Bertha Harman, Myra Leonard, Benj. Crandall, Mary Cannon.

English Literature—Mabel Bassett, Nora Bundy, Florence Bassett, Pauline Barney, Agnes Raham, Agnes Delaney, Celia Patten, Wilma Wright, Agnes Parker, Benj. Barney, Samuel Crandall, Benj. Crandall, John Hoyt, Volney McCann, Geo. Porter, Wm. Trowbridge.

1st Year Latin—Mary Cannon, Augusta Pease, John Hoyt, Volney McCann.

Arithmetic—Ella Crandall, Mary Cannon, Lida Cook, Jennie Fosbury, Edith Hartman, Emma Korts, Ella Kemp, Jennie Owen, Josie Sackett, Maude Williamson, John Carr, Samuel Clark, Patrick Lynch.

Algebra—Pauline Barney, Mary Cannon, Grace Hardy, Benj. Barney, Wm. Trowbridge.

Solid Geometry—John Hoyt, Volney McCann.

Trigonometry—John Hoyt, Volney McCann.

Physical Geography—Lena Brundage.

Physiology and Hygiene—Sarah Barney, Mabel Brown, Ella Crandall, Clara Comstock, Elta Driscoll, Grace Hardy, Edith Hartman, Bertha Harman, Emma Korts, Inez Lever, Jennie Owen, Lizzie Owen, Augusta Pease, Grace Robinson, Rena Slocum, Mary Snyder, Josie Sackett, Hettie Wright, Maude Williamson, Roy Deming, Miles Herrick, Arthur O'Leary, Geo. Porter, Clark Richardson.

Geography—Florence Brewster, Mabel Bassett, Angie Barney, Jennie Fosbury, Ella Kemp, Tessa Parlon, Clayton Cunningham, John Carr, Dennis Doran, Clayton Williams.

U. S. History—Lena Brundage, Mary Snyder, Benj. Crandall, Patrick Lynch.

Economics—Celia Patten, Volney McCann, Wm. Trowbridge.

Drawing—Lois Brewster, Florence Bassett, Lena Brundage, Roxie Carpenter, Lena Driscoll, Bertha Hall, Celia Patten, Benj. Crandall, Augusta Pease, Geo. Cochran, Wm. Trowbridge.

By the above list our patrons will be enabled to judge the success of our last examination. The 12 advanced certificates are worth \$5 each to the school, and the Mathematical Diploma \$10. This makes an income of \$70 as the result of one examination. Besides this we have added 13 more academic students to our list who will share in their per capita portion of the Regents' Fund. I may also add that at our November examination, Samuel Crandall earned a 40 count certificate and Celia Patten a preliminary. This makes a total of 28 certificates for the past term and a total of \$75 from the Regents. Besides this we have received or are entitled to receive, \$226 non-resident tuition money for one term only.

Last year our income from the Regents was \$90.41. This sum has already been received and deposited with the treasurer. From non-resident pupils we received during the first half of last year less than \$175; so that the present year shows as great an increase of prosperity over last year as that did over the previous year.

We cannot of course, at this early date accurately foretell the amount to come from the Regents during the year, but if the students continue to do as well as they have during the past term, I can safely say that we cannot receive less than \$200.

But we must not forget that the financial benefit is the smallest of considerations. If our patrons will take pains to investigate and make themselves more familiar with the working of the school, I feel sure that they will be satisfied that the actual good accomplished by the Regents' system, cannot be calculated in dollars and cents. The renewed enthusiasm, the vigor, ambition and healthy desire to excel are among the first and best fruits of our present system. It adds that our doors are always open and we are always glad to welcome all patrons and friends of the school.

## EVERY WORD TRUE.

The Following Letter Says the Poughkeepsie Eagle, Feb. 10, 1892.

POUGHKEEPSIE, April 30, 1892.

Messrs. Platt and Platt, proprietors and editors Poughkeepsie Eagle.

Gentlemen—The enclosed is a sample of the many letters I am receiving from all over the country, asking as to the truth of an advertisement printed in your paper, giving my experience with Dr. David Kennedy's Favorite Remedy.

I wish to say it was a pleasure to give that recommendation to Dr. Kennedy, and that when I said I was cured of a tumor of the bladder and chronic kidney disease, I wrote simply the truth.

For twenty long years before I used this valuable medicine, I suffered from urinary troubles, pain in my back and in my joints, sleepless condition, yet before I had taken the fourth bottle I was cured, sound and well. I have replied to this letter and am willing to do any similar service to those who are afflicted and will cheerfully answer all who write me. But I make this public statement hoping it may reach the eye of the sufferer, and perhaps save me personal correspondence, for at my age letter writing is not as easy as when I was younger. I remain
