

## THE ANDOVER NEWS

ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR  
ANDOVER, N. Y., Feb. 15, 1893.

The dispensary system of controlling the liquor traffic which is maintained in Clark county, Ga., has proved a success from at least a pecuniary point of view. Under that plan the county, operating through an agent, is the sole vender of intoxicants within its borders. The report of the agent for last year shows that \$55,000 was spent in the purchase of liquor, which yielded a gross return of \$77,000. The net profit was \$14,000. The social effect of this system is not stated. It is not probable, however, that the dispensary idea will be adopted north of Mason and Dixon's line.

It is reported that President-elect Cleveland has tendered to Walter Q. Gresham the Secretaryship of State in the new Cabinet, and that the position has been accepted. Judge Gresham has always been a Republican until last fall, when he voted for Cleveland. He stated, however, that he was still in accord with the Republican party upon all questions except that of the tariff. Mr. Cleveland's action does not meet with hearty approval among those who believe the Democratic party contains material from which a good Cabinet can be formed. It is not at all certain, however, that the position has been tendered and accepted as stated, but there are apparently good grounds for belief that it is a fact.

A bill has been introduced in the Pennsylvania Legislature providing for the purchase by that State of the ground upon which Washington's army encamped at Valley Forge. Two hundred and fifty acres of land constitute the historic spot, and an appropriation of \$30,000 is needed to secure the property. It is proposed to convert the place into a public park and to rescue from decay as far as possible the remains of the forts and intrenchments reared by the patriot army. In order to recommend the project still further to public support it is designed that the park shall be used as a camping ground for the National Guard of Pennsylvania. The bill has received the cordial indorsement of numerous social, historical and commercial societies of the Keystone State. It is a measure for the encouragement of patriotism, and will probably be passed.

Despite all the talk about the exhaustion of the country's timber supply at the present prodigious rate of forest destruction, expert estimates of the quantity of lumber still in standing trees show that we are yet a great distance from a shortage. It appears that Washington alone has 410,000,000,000 feet of standing timber and neighboring States west of the Rockies 433,000,000,000 feet, making a total sufficient, as a late writer expresses it, to girdle the earth with a belt of dense forest a mile wide three times round, with an additional lap from Puget Sound to the Atlantic. In addition there is the supply of the Southern and Eastern States, aggregating 353,000,000,000 feet. When these sources of supply give out we can draw on the 67,000,000,000 feet, the minimum quantity estimated to be available in Alaska. Nor need we stop here. Before our present supply is exhausted, Canada will be part of the Union, and we can begin on the 1,275,000,000,000,000 feet standing untouched on the 85,000,000 acres of available timber area of British Columbia.

Ex-Senator Sloat Fassett is devoting himself almost exclusively now to newspaper work. He is the owner of the Elmira Advertiser and frequently remains in his office until his paper goes to press. "I find," he said, "that there is a fascination about the newspaper business even in a small town and I believe I shall stick to it in the future. It beats politics all to pieces."

## CHILDHOOD AND OLD AGE.

The Tender Grandchild and a Well-to-do Old Gentleman of 72, Acknowledge Obligations.

The preparation that can be taken with safety and benefit by the tender infant, and that nourishes, strengthens, and cures the aged and infirm, is one that is truly called scientific. Such a preparation was discovered by Dr. David Kennedy and named Favorite Remedy. It is prescribed and recommended the world over, by the medical profession, as the best medicine produced for the cure of all diseases arising from an impure condition of the blood.

This beautiful child whose picture is shown here, is the grandchild of Mr. J. E. Palmater of Athens, N. Y., who has been cured of gravel in the kidneys and insomnia, (sleeplessness) finishes his letter by saying:

"But this is not all. Kennedy's Favorite Remedy has done for me what no other medicine could. My little grand daughter has been taken from her arms around the neck of a doctor. My wife gave her Favorite Remedy, and what was the result? The child was all right, and she is now as fat and healthy as a pig."

Mr. Solomon Davis of North Kortright, N. Y., finds himself at 72 years, suffering

from neuralgia, felt tired all the time, weak, languid, poor appetite, and no ambition. Thought at his age nothing could do him any good, but like hundreds of other people in his condition tried Dr. Kennedy's Favorite Remedy and began to get better at once, and now feels as hale and hearty as he ever did. It is particularly pleasing to find that there is a remedy that cures disease, builds up the weak and debilitated, strengthens the nerves, and has restored to health, strength, men and women who have been confined to their homes for months by beds of sickness.

Notice to Creditors.
