## HEART DISEASE 20 YEARS.

Dr. Miles Medical Co., Elkhart, Ind.

Dear Sirs: For 20 years I was troubled with heart disease. Would frequently have falling spells and smothering at night. Had to sit up or get out of bed to breathe. Had pain in my left side and back most of the time; at last I became dropsical. I was very nervous and nearly worn out. The least excitement would cause me to faint. I was also much troubled with fluttering. For the last fifteen years I could not sleep on my left side or back until being taken your *Heart Cure*. I had not taken it very long until I felt much better, and I can now sleep on either side or back without the least discomfort. I have no pain, smothering, dropsy, no wind on stomach or other disagreeable symptoms. I am able to do all my own housework without any trouble and consider myself cured.

It is now four years since I have taken any medicine. Am in better health than I have been in 40 years. I honestly believe that *Dr. Miles' New Heart Cure* saved my life and made me a well woman. I am now 62 years of age, and am able to do a good day's work. May 29th, 1892.

## W. C. T. U.

The Woman's Christian Temperance Union of Andover meets the first and third Thursday in each month.

The query has often arisen of late, "What about license for another year?" We have had an object lesson for the past year which makes it possible for us to estimate the good or the evil resulting from the legalized saloon in our town. It will be a profitable exercise for every voter to spend the next half hour in computing the profit or loss to the town. Does anyone think our streets have been more orderly, our taxes lower, our general moral tone improved? Has the patron of the saloon had more money to buy the necessities of life for his family?

On the other hand, can we measure the results of even one tempted to the drunkard's ruin? And it is not one, but many who have so fallen. Are we not poorer both in pocket and in character for the year of license behind us? Now the question is, "What next?" We women may not so much as lift our hand to protect our dear ones from the temptation which surrounds them. With the voters alone lies the responsibility. It is not too late, even now, for the churches to speak with no uncertain sound on this question, which, more than any other, hinders the coming of Christ's kingdom. We appeal to the Christian voters of Andover for the protection which we are not permitted to give ourselves. At whose door lies the responsibility for this iniquity? Is it at yours?

Catalogue of the Ills Resulting from the Use of Liquor.

It clogs the brain. It overworks the heart. It checks the action of the lungs. It inflames and hardens the liver. It causes fatty degeneration of the kidneys.

It arrests digestion by inflaming the mucous membrane of the throat and stomach.

It creates an appetite which is only increased by being gratified.

It destroys the nerve force and paralyzes the energy.

It diseases to the third and fourth generation, by the laws of heredity.

It not only ruins the mental and physical faculties, but wrecks the moral powers.

This is what it does for man, as an individual. Now what effect has it on society, business, politics and religion?

It blasts homes. It degrades father and son. It blights wife-love and mother-pride.

It chains womanhood in the hell of unchastity.

It blocks factory wheels. It clogs mines and mills.

It furnishes "no market" for all sorts of produce.

It delays sales of bread, cloth, shoes, lumber, furniture, groceries and fuel.

It causes strikes, fills jails and piles costs on county, state and nation.

It corrupts politics and politicians. It creeps into the ballot box and destroys free suffrage.

It places men in office who dare not oppose the traffic.

It hinders honest legislation and brews laws which are a stench in the nostrils of every patriot.

And, first, last and above all, it dums men eternally, giving them no hope in life or in death.

## Fatal Accident at Scio.

A peculiarly sad and fatal accident occurred at Scio, on Monday, Feb. 13, to Harry, the thirteen-year-old son of Mr. Fred Wilber, a well-known resident of that place. The lad was on his way to school, and attempted to catch a ride on a load of baled hay which was passing. The road was very icy, and there was a slight downward grade. The horses were traveling quite rapidly. While trying to board the sleigh at the side of the load Harry slipped and fell beneath the rear bob, which ran over him, fracturing and mangling his leg and hand, and also breaking the spine. He was taken home and prompt assistance rendered. A specialist was also summoned from Bradford, but the injuries were such that there was no hope of saving the boy's life, and he died last Friday. The funeral services were held Sunday afternoon at the M. E. church in Scio, and were largely attended. Harry was an unusually bright, intelligent boy, and his parents have the sympathy of many friends in their affliction.

Three days is a very short time in which to cure a bad case of rheumatism; but it can be done, if the proper treatment is adopted, as will be seen by the following from James Lambert, of New Brunswick, Ill.: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right to-day; and would insist on every one who is afflicted with that terrible disease to use Chamberlain's Pain Balm and get well at once." 50 cent bottles for sale by L. A. Burrows.
