

THE ANDOVER NEWS

ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR

ANDOVER, N. Y., April 6, 1893.

Twenty thousand men in New York with no grievance against their employers are about to throw themselves out of employment because they sympathize with some other men who have struck. We believe there is no record of a sympathetic strike having succeeded. It would be more practical for the sympathizers to stay at work and aid the strikers with a part of their wages.

The oil regions of western New York and Pennsylvania continue to furnish a pretty large percentage of the exportations of the country. The fiscal year, which is to end 90 days hence, will probably show exportations of oil amounting to nearly \$40,000,000 in value, and footing up considerably more than 500,000,000 gallons of mineral oil from these two states. The year just about to end will round up a 20 years' record of exportation of mineral oils which will be interesting in its showing. In 1863 the exportation of illuminating mineral oil amounted to 23,220,417 gallons of mineral oil, valued at \$7,469,795. Last year the total was 564,896,658 gallons, valued at \$33,541,224, while in the preceding year the value of the oil exported was over \$40,000,000. The total exportations of illuminating oil for the period which will end with June 30 of the present year will aggregate in round numbers \$1,000,000,000.

The United States Patent Office records of last year show that over 400 applications were filed by women, their inventions ranging from button-hole flowerholders to valuable devices for railway construction. A great deal of their inventive genius was devoted to the convenience and comfort of the sterner sex, resulting in improved suspenders, self-attaching neckties and other reliefs from the annoyances encountered more particularly by the bachelors of the land, and which are justly looked upon as a punishment for their perverse adherence to a life of single blessedness. "Here," observes the *Detroit Free Press*, "is suggested a field where the ambitious and intelligent woman may find remunerative employment and where the ordinary rules of competition govern. If her inventions have merit and meet a demand, they will be as quickly adopted and as well paid for as though a man's brain had done the same work."

"The mania for committing suicide is spreading to an alarming extent," remarked a professor at Johns Hopkins University, Baltimore, Md., a few days since. "I recall reading a prediction," he continued, "that between the years 1885 and 1895 such an epidemic, if you can call it that, would prevail, owing to the planetary influences, and the facts seem to bear it out, whether the prediction was based on superstitious grounds or as a result of astronomical research. History tells us that at an early period in France so prevalent was the idea of self-destruction that the Government issued a decree that after a certain time the body of any man or woman guilty of taking his or her life should be hanged in a public place and designated as that of a cowardly criminal. The result of the edict was that thereafter the suicidal mania became unfashionable, and deaths from this cause were few and far between. It would appear to me, reviewing the history of the last few years, that some legislation of the same sort must be enacted in America."

RHEUMATISM PREVALENT.

Caused by the Sudden Changes of Temperature.

PEOPLE WHO HAVE FOUND RELIEF.

Rheumatism is more prevalent here than ever before. When this disease fastens upon an individual with its soreness and pain, swelling the joints, rendering him helpless in his movements, and shattering his usefulness, he is indeed an object of pity. The slight pain in the back, pain or stiffness of the joints or muscles, is a warning indication of an impoverished condition of the blood, a low state of health, and if not attended to at once, means rheumatism.

Rheumatism can now be relieved and cured. Since the introduction of Favorite Remedy, by Dr. David Kennedy, of Rondout, N. Y., there has been fewer sufferers than ever before.

Favorite Remedy drives out rheumatic poison from the blood, restores the circulation, strengthens the nerve power. The best proof of its value is the good it has done.

"I was afflicted with inflammatory rheumatism for fifteen years," writes Mr. E. P. Taylor, of East Nassau, N. Y. "So severe that I was supposed to be a cripple for life. Under physician's treatment I grew worse. Dr. Kennedy's Favorite Remedy helped me from the time I first used it, and entirely cured me. Have felt no trace of the disease since, and that was three years ago."

The beautiful daughter of Mr. James McFarland, of DeMoines, Ia., was helpless for months with sciatic rheumatism. After a few doses of Dr. Kennedy's Favorite Remedy, she began to grow better, appetite improved, slept well, and continuing its use, was cured.

"I was confined to my bed with rheumatism so bad that he had to be turned over in bed. After using Dr. Kennedy's Favorite Remedy but a short while was restored to health."

What reason then for suffering with rheumatism or neuralgia. This medicine will help you if given a trial.

Referee's Notice of Sale and Foreclosure.

SUPREME COURT—County of Allegany.

John R. Clark, Plaintiff

against

John Young et al., Defendants.

In pursuance of a judgment and decree of foreclosure and sale, duly granted in the above entitled action, and entered in Allegany County Clerk's office on the 7th day of March, 1893, the undersigned Referee will sell at public auction at the front door of the law office of D. A. Stebbins, in the town of Almond, County of Allegany, N. Y., on the 21st day of April, 1893, at 10 o'clock a. m., the premises described in said judgment and decree, as follows, viz: All that tract or parcel of land situated in the town of Almond, County of Allegany and State of New York, known and distinguished as the whole of Lots Nos. sixteen (16) and twenty-one (21) in the north-west division of township number four, in the seventh range of townships, containing inclusive one hundred and thirty-one acres and 44-100 of an acre, as surveyed by N. M. Hubbard, be the same more or less.

Also all that other tract or parcel of land situated in said town of Almond, County of Allegany and State of New York, known and distinguished as the south-west part of Lot No. twenty-seven (27) in the north-west division of Township No. four, in the seventh range of townships, containing fifty-one acres and 50-100 of an acre, as surveyed by N. M. Hubbard.

The lands first described herein are the same conveyed to Cornelius McLeese by Masterston (Trustee) et al., by deed recorded in Allegany County Clerk's office in Liber 42, at page 442, on the 30th day of October, 1884, and the lands last described are the same conveyed to said McLeese by Henry C. Howard et al., by deed recorded in said office on the 20th day of December, 1875, in Liber 92, at page 611.

Also a strip of land in said town about two rods wide, extending from above described lands along the west side of the lands of Lyman Handy to the North Valley road, and the same is now used as a road to said lands.

Dated March 7th, 1893.

D. A. STEBBINS, Referee.
