

## W. C. T. U.

The Woman's Christian Temperance Union of Andover meets the first and third Thursday in each month.

A minister in Chicago recently said that Chicago has 8000 saloons, 80 per cent. of which are owned or managed by brewers, and brewers have gone into politics. Upwards of half a million men in the United States alone are engaged in the industry of making paupers and beggars. The malt liquors consumed in the United States in 1892 averaged about half a barrel to a man. Carroll D. Wright, our greatest statistician, says that 72 per cent. of the crimes in Boston are liquor crimes. In the fifteen largest cities in the land, 73 per cent. of all arrests are for drunkenness or for drink offenses. Terrence V. Powderly says that one-fifth of the drink bill of the nation is paid by the working man. In New York City alone its aggregate is fifteen million dollars a year. One county in Pennsylvania, chiefly inhabited by working men, pays eleven million dollars a year out of the pockets of the miserable. In 1891 the amount of liquor drunk averaged twelve dollars twenty-five cents a head. If these things are so what manner of persons ought we to be?

Is it fair that men, voters and law-makers should legalize that which ruins body and soul and then ask the wives and the mothers to hold their husbands and their sons back from destruction? It is a heavy burden which these same law-makers are laying upon the hearts of the women of America in that they ask us, by personal influence, education and persuasion, to save a nation from drunkenness, while they do their utmost to counteract our efforts. But the fact remains that, whether fairly or not, a heavy responsibility does rest upon us, and we may not throw it off.

Miss Bertha Lamme, of Springfield, O., recently received a degree of electrical engineer, at the Ohio State University. She is said to be the first woman in the world to receive this degree. She has led her class all through, and has already accepted a position with the Westinghouse Electric Co., at Pittsburgh.
