

THE ANDOVER NEWS

ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR

ANDOVER, N. Y., Sept. 12, 1893.

Mrs. Grover Cleveland gave birth to a girl baby last Saturday. On the same day baby Ruth was two years old.

Senator Stewart gave a practical demonstration of what the silver Senators can do in the way of lengthening the discussion on the repeal bill by his long speech last week. If every silver Senator should make one of equal length, it would occupy the greater portion of the time between now and Christmas. But it is doubtful if many members of the Senate are as long-winded as Senator Stewart.

The premium on currency has entirely disappeared in the cities, scores of factories are starting up after weeks of idleness, and all signs point to a rapid restoration of business activities. If the Senate doesn't hurry up and pass the repeal bill, good times will be ahead of the legislation which was expected to do so much, and the members of the National Congress will not be able to say, "We did it."

No more notable international body of men ever met in the National Capital than the Pan-American Medical Congress, which was in session last week. Nearly every country upon the western hemisphere was represented, and many of the delegates were physicians of world wide reputation. The event was a reminder of the creative genius of James G. Blaine, and a partial realization of his dream of drawing the American republics closer together in bonds of unity of sentiment and reciprocity of commerce.

The terrible rain, hail, thunder, lightning and wind storm of last week Thursday did not do much damage this vicinity, but it is reported that a number of people were killed and considerable damage done several miles south of here in the town of Bingham, Pa.

According to an old superstition, the coming winter will be very cold, as spiders are so numerous, beechnuts abundant, and corn husks thicker than usual. Yes, and it is probable Explorer Peary kicked so hard over the price of dogs with which to prosecute his journey, to the North Pole, that the ice floe became detached and is on its way to southern seas. He will probably start a summer resort for people suffering with "ager," and such. Watch him.

Thanks to the late rains, there will be a fair yield of late pough-teary this fall.

Our school commenced on Monday with Mr. Benjamin Crandall as the teacher.

Mr. A. J. Brown arrived Sunday and will take charge of the store here.

GREENWOOD NEWS.

Oh! but didn't the wind blow last Thursday! It was a young cyclone, and not an infant, either. Quite a number of orchards were ruined. The large barn on the Bassett farm was unroofed and split in two. A number of other buildings were blown down. L. D. Rogers was on the road from Canisteo to this place when the storm struck him. He was blown from his wagon, spring-seat and all, the horses became frightened and ran away, but were stopped before they ran far. It became so dark that lamps had to be lighted. Many of the hail-stones were larger than a bird's-egg. So much for Western New York.

Mr. Arthur Woodard, wife and daughter attended the Wellsville fair one day last week.

Prof. E. Fenner returned to Flushing, Long Island, last week, for another year of school.

M. Hammerly, a well-known business man of Hillsboro, Va., sends this testimony to the merits of Ayer's Sarsaparilla: "Several years ago, I hurt my leg, the injury leaving a sore which led to erysipelas. My sufferings were extreme, my leg, from the knee to the ankle, being a solid sore, which began to extend to other parts of the body. After trying various remedies, I began taking Ayer's Sarsaparilla, and, before I had finished the first bottle, I experienced great relief, the second bottle effected a complete cure."
