

THE ANDOVER NEWS

ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR

ANDOVER, N. Y., Oct. 18, 1893.

In history 1893 will be known as a year of disaster. Its calendar is laden with financial and natural misfortunes. All that is needed to complete the doleful catalogue is the rupture of the peace of Europe and a great continental war.

The stern Georgia judge who fined himself ten dollars the other day for being late at court rather spoiled his chance for acquiring a reputation for perfect impartiality by remitting the fine on the ground that it was his first offense.

Last Friday the American yacht Vigilant won the third race in the series between it and the English yacht Valkyrie, thus settling the question as to the possession of the cup for another year at least. This cup has been held in America for the past forty years, and it seems impossible for anybody across the water to get it.

President Cleveland is not the only one who has lately been made happy by that most charming of all additions to a household—a baby. On the same day Baby Ruth's sister was born Mrs. Dot, forty-nine inches high, wife of Admiral Dot, forty-eight inches high, gave birth in New York to a bouncing baby girl weighing six pounds, which, according to all indications, promises to grow to be as big as any other little girl.

A book agent some time ago stopped at a house at Oakland, Cal., and asked the occupant to purchase a book. He not only refused, but "sle'd" his pet bulldog on the book agent. After recovering the agent sued the man, and was recently awarded \$5000 damages by a jury. It would have been decidedly cheaper for the man to have bought a book, or, in fact, the agent's entire stock. This must not be taken, however, as advising the purchase of a book every time an agent calls on you.

A locomotive race between the famous "N. Y. Central 999" and the English "Queen Empress" has been arranged, and will occur early in November. The route will probably be between Buffalo and Albany, over the Central tracks. The American locomotive's record is as follows: One mile in 0:32, or at the rate of 112 miles an hour. The "Queen Empress" is a full sister of the famous "Great Britain," which has a record of 80 miles an hour. The engines represent two distinct and separate classes of locomotive building. On the result of the race much depends. It will establish the question of superiority of the two styles.

The recent gathering at the World's Fair called the World's Parliament of Religions was the most wonderful gathering that the world has ever seen. Since creeds took shape and traditions and beliefs crystallized into religions, there never has been seen a day when representatives of all could meet in friendly conference on the common ground of a desire for the advancement of humanity. This has been seen at Chicago. It has been left for this generation and this young and free republic to witness such a parliament. Even in our fathers' time it would have been impossible. It is the most remarkable illustration of progress of the world in liberality, in freedom and in advancement which this most remarkable World's Fair has offered.

The experiments that have been carried on at Almond for several months past in search for gas, have been abandoned. The small quantity of gas found soon flickered out and the company has abandoned the field. The machinery has been removed to Canisteo, and the pipes that had been laid in the village are being taken up and will also be shipped to Canisteo.

Mary Van Bushkirk resides at Gulf Summit. Recently she had an encounter with an immense eagle which she will not soon forget. She has some fine poultry and on Thursday afternoon, hearing a great commotion among the fowls in the back yard, she stepped to the door. A large eagle was in the act of swooping down upon a hen, which it did not catch, however. Mrs. Van Bushkirk tried to frighten the eagle and it attacked her fiercely. Its screams of rage terrified the woman, but she would not run. The bird sunk its talons into her arm and she could not loosen them. Near by a hatchet was lying on the ground, and seizing it she wounded the eagle. She succeeded in dispatching it after a hard battle. Her arms were badly lacerated and she was so weak she could hardly stand. The dead bird measured five feet in length. Mrs. Van Bushkirk enjoys the distinction of being the only woman in this portion of the country who has ever been attacked by an eagle.—Binghamton Herald.

If you wish to secure a certain and speedy result, when using Ayer's Sarsaparilla, be careful in observing the rules of health, or the benefit may be retarded. A fair and persistent trial of this medicine never fails, when the directions are followed.

Notice to Persons Having Claims Against The County of Allegany.

The Board of Supervisors of the County of Allegany will hold its annual session at the court house in the village of Belmont, on Monday, Nov. 13th, 1893.

All persons having claims against the County of Allegany should present the same to the Board, duly verified, on or before the third day of the session.

CHARLES STILLMAN,
Clerk of the Board of Supervisors.

Don't commit suicide on account of your "incurable" blood disease. The sensible thing for you to do is to take Ayer's Sarsaparilla. If that fails, why, then—keep on trying, and it will not fail. The trouble is, people get discouraged too soon. "Try, try, try again."

A Salary

With expenses paid will come handy to any one who is out of employment, especially where no previous experience is required to get the position. If you want a position, see advertisement on page 4, headed, "A Chance to Make Money."

INFLUENZA,

Or La Grippe, though occasionally epidemic, is always more or less prevalent. The best remedy for this complaint is Ayer's Cherry Pectoral.

"Last Spring, I was taken down with La Grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I begun taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete. It is truly a wonderful medicine."—W. H. WILLIAMS, Crook City, S. D.
