I. have-neticed that men are particularly rehement maxims sins to which they are not particularly tempted and find no especial writh against sins in which they are not particularly tempted and find no especial writh against sins in which they them selves indulge. They take out one gun from this battery of ten guns, and load that, and unlimber that, and fire that. They say, "This is an Armstrong zun, and this is a Krupp gun, and this is a Sordenfeldt five-barreled gun, and this is a Martint thirty-seven-barreled gun, and this is a Martint thirty-seven-barreled gun, and this is a Martint thirty-seven-barreled gun. But I have to tell them that they are all of the same caliber, and that they are all of the same caliber, and that they are all of the same caliber, and that they are all of the same caliber, and that they shoot from sternity to eternity. Many questions are before the people in the elections all over this land, but I shalty to show you that the most important the elections all over this land, but I shalty to show you that the most important in the elections all over this land, but I shalty to shalty maintenance. Of source we shall not find anything like parfection. If we do not vote until we find an immaceniate nomine, we will never vote at all. We have so many faults of our own we ought not to be censorious or maledictory or hypercritical in regard to the faults of others. The Christiy rule is as appropriate for November as any other month in theyour, "Judge not that ye be not judged, for with what measure ye mete it shall be measured to you again.

What a merey it is that they were not all hung before they were in augurated! It a man believe one-half of what he sees in the newspapers in these times, his career will be very short outside of Bioomingdale insane asylum.

I have this book for my authority when I say that the man who swears or the man who swears or the man who swears or the man who sraks the Sabbath is as culpable before God as these candidates who break other commandments. What right have you and I to select which commandment we will keep and which we will break? Better not try to measure the thunderboots of the Almighty, saying this has less blaze, this has less momentum. Better not handle the guns, better not experiment much with the divine ammunition.

Cleero said he saw the "Hiad" written on a nutshell, and you and I have seen the Lord's Prayer written on a five cent piece, but the whole tendency of these times is to write the Ten Commandments so small no-body can see them.
