#### THE ANDOVER NEWS ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, - EDITOR

ANDOVER, N. Y., Nov. 29, 1898.

As a life destroyer, the folding bed is becoming a fair rival to the "unloaded" gun.

One of the things too be thankful for is that in about a month the days will begin to grow longer.

If in doubt what to do with a \$5 bill spend it on a Thanksgiving dinner for the family of your neighbor who is out of work.

It still seems to be an open ques tion whether Minister Willis will est his Thanksgiving dinner with Queen "Lil" or with President Dole.

They have the right idea in Milwaukee, where a Jewish rabbi and a Methodist preacher propose to exchange pulpits on Thanksgiving Day

According to the official figures one out of every forty of the inhabitants of the United States paid an income tax in 1868, the tax being levied on all incomes exceeding \$600 a year.

Dr. Felix Alder sizes the thing up closely when he places the responsibility for much of the existing political corruption upon the respectable citizens who do not vote or take any part in politics.

There is something suspicious about the wonderful speed acquired by vessels built for the government, on their trial trips. . Why is it that we hear so little about their speed after they are commissioned?

Steps have been taken in Washington to preserve and suitably mark the birthplace of George Washington in Wakefield, Westmoreland county, lying on the Potomac river. Westmoreland, in addition to being the birthplace of the first President of the Republic, had President Monroe and General Lee born within its ties and everything required to make a borders.

Great excitement prevails in various parts of the country, particular-ly in cities, over the formation of branches of the American Patriotic Association, an association whose Association, an association whose principal object is alleged to be the crushing out of Catholicism. An American Patriotic Association would be all right, but with such a tail as that tacked onto its declaration of

The appeal from the order of Justice Williams striking from the registry lists the names of women who wanted to vote at the recent election came before the General Term at Syracuse last week. The object of the appeal was to get the case before the Court of Appeals, and the General Term the necessary data is put upon the assessor. that the matter may be taken to the highest court at once.

Our readers will perhaps remember that early last summer, when it was feared there would be an outbreak against the Chinese in Oregon, President Cleveland suggested to Governor Pennoyer of that State that he should use every effort to maintain peace. The Governor sent back word as follows: "Let the President attend to his business, I'll attend to mine." This same Govern further proof that he is a first-class ass by designating Thursday, Nov. 23, as Thanksgiving Day, ignoring entirely the President's appointment of Nov. 30. When Governor Pennoyer vacates the Governor's chair the people of Oregon rill have more to be thankful for than they have now.

New England pie preparations ready for see in five minutes. Beebe, Williams & Co.

A citizen of Deposit, N. Y., who takes a practical and common sense view of matters, writes as follows to the Courier of that place. We commend the article to the careful consideration of Andover people:

"Many have an idea that towns grow because a necessity for them exists. They think it makes no difference what steps are taken to boom a town, the place will grow if its natural advantages are sufficiently attractive and men can make something by living there. The fact is, most towns are rotten bridge in the town of Lyndon made; they do not grow. They are built up through the energetic efforts of the people who like to see a town push on. Take fifty small towns, and two or three of them, in time, will become large and important places, while the rest of them will continue to move along in the same old rut. The town that goes shead is driver

The town that goes ahead is driven forward by its citizens. The men of a town see that a line of road will benefit them, and the road is built; they mark that a bridge is needed to draw trade, and the bridge is constructed. They observe that a flour mill or a cannery or a woolen mill has proved a charming card in some other town, and they subscribe money and have one in their own; a newspaper is a necessity, and money is raised to have one; a church or a school house is needed or will draw more people, and the building is soon erected. In this maner the town is constantly forced onward.

If you had a few thousand where

ner the town is constantly lotted stream.

If you had a few thousand where would you place it? Would it be in the towns where no money is spent in advertising, in booming, building up and driving forward? No, indeed, you would go to the locality where the business men are wide awake, alert full of drive, push and energy. So we say a town is made. It does not grow on its own accord, but is built by the well directed efforts of its most leading and enterprising citizens, who are not mean enough to squeeze a dollar so hard that the eagle will cry out in pain."

Addison Santee has been declared insane by a committee of doctors and sent to Canandaigua asylum. He was a former resident of Alfred Centre, about 60 years of age, and recently married young girl in Wellsville. It is rumored that his friends have taken this step to place bim in an asylum in order to break up the match.

For flavor, crispness, keeping qualifirst-class cracker, there is nothing equal to Butter Creams, manufactured by the Binghamton branch of the New York

By resolution of the Board of Supervisors, a half-tone picture of the late Daniel D. Gardiner will appear on a me morial page to be inserted in the printed proceedings of the Board.

that tacked onto its declaration of principles the sconer it is engulfed beneath a wave of public opinion the better.

The question whether women have a right to vote for School Commissioners in the towns is on the way to decision by the Court of Appeals.

The appeal from the order of Justice

The appeal from the Board of One Way to be Happy

Is at all times to attend to the com forts of your family. Should any one of them catch a slight cold or cough, for a family should any one of them catch a slight cold or cough, for a family should any one of them catch a slight cold or cough, for a family should any one of them catch a slight cold or cough, for a family should any one of them catch a slight cold or co

The Supreme Court of the United States in an opinion read by Justice Field, has held that the great lakes of the United States and their connecting waters were included within the term "high seas," as used in the statutes providing punishment for crimes committed thereon. The case came up on appeal of the United States from the judgment of the Circuit Court of the United States for the western district of Michigan Justices Gray and Brown dissented.

Walter Corthell, who received serious injuries by his wagon falling through a rotten bridge in the town of Lyndon

Speaks through the Boothbay (Me.) Register, of the beneficial results he has received from a regular use of Ayer's Pills. He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugarcoated that even a child will take them. I urge upon all who are in need of a laxative to try Ayer's Pills. They will do good." For all diseases of the Stomach, Liver, and Bowels, take
