

THE ANDOVER NEWS

ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR

ANDOVER, N. Y., Dec. 20, 1893.

It begins to look as though she had changed her name to Lill-can't-get-there.

Senator Hill doesn't have to ask where he is at, in these doubtful days; he's outside the pie bakery and he knows it.

The European anarchists use dynamite to destroy their public men; Americans use ballots, which are more preferable and more effective.

Hawaii has fifty-six miles of railway, and 250 miles of telegraph lines, and almost every dwelling and business house in Honolulu has its telephone. The city has street railways and is lighted by electricity.

There were yet living on the 30th of June last, fifteen widows of veterans of the war of the Revolution. The report of the Pension Department says they were drawing their pensions at that date, any way. The war ended 111 years ago.

From a Washington society woman to the leader of a fanatical religious sect is a long leap, but it seems to have been made by the wife of ex-Attorney General Williams, who is now a resident of Oregon. Mrs. Williams has just completed a fast of forty days, which she says was for the "purification of the body."

A writer in the *American Agriculturist* has been examining the last census report on farm mortgages, and he finds that the mortgaged farms constitute but one-fourth of the total number of farms in the United States, the other three-quarters being owned free of incumbrance. The average mortgage represents one-third the value of the farm upon which it is secured, but the total amount of farm mortgage is hardly one-tenth the total value of all our farms. In 1880, nearly one-fifth of the mortgage indebtedness rested on farms, but in 1890 farm mortgages represented only one-seventh of the country's total indebtedness on real estate. Out of every hundred American farms more than seventy are fully paid for, and less than thirty are mortgaged. Out of every hundred families on farms in 1890, forty-seven owned their farms free of mortgage, twenty owned but with incumbrance, and thirty-two hired the farms they lived on and worked. Of those who cultivate their own farms, seventy per cent own without encumbrance, and only thirty per cent. have mortgages. Hardly ten per cent. of the hired farms are incumbered. Four-fifths of the amount of debt on farms and homes was incurred to buy and improve the property, and a like proportion of the number of farms and homes were mortgaged for the same purpose.

INDEPENDENCE NEWS.

A Merry Christmas to ye editor and his large family of readers!

Mr. Miles F. Livermore went to Cuba on business last Saturday.

In spite of the cold weather and tremendous snow storms last week, Thursday, there was a big thaw Friday that melted the snow so rapidly as to somewhat bewilder one with the sudden change of temperature.

It is expected that the S. D. B. church will be cleaned this week.

The Rev. Madison Harry has been induced to preach, for a limited time, for the First Day people, and evening services are held Sunday evenings in the S. D. B. Church and are well attended.

DESERVING PRAISE.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. L. A. Burrows, Druggist.

Saved Her Life.

Mrs. C. J. WOOLDRIDGE, of Wortham, Texas, saved the life of her child by the use of Ayer's Cherry Pectoral.

One of my children had Croup. The case was attended by our physician, and was supposed to be well under control. One night I was startled by the child's hard breathing, and on going to it found it struggling. It had nearly ceased to breathe. Realizing that the child's alarming condition had become possible in spite of the medicines given, I reasoned that such remedies would be of no avail. Having part of a bottle of Ayer's Cherry Pectoral in the house, I gave the child three doses, at short intervals, and the child's worried results. From the moment the Pectoral was given, the child's breathing grew easier, and, in a short time, she was sleeping quietly and breathing naturally. The child is alive and well today, and I do not hesitate to say that Ayer's Cherry Pectoral saved her life.
