

ANDOVER'S  
A Chapter Devoted to  
of this Prosperous

It has been said that everybody has a hobby, and the editor of the News is willing to plead guilty to the charge of having for his hobby the desire to hold up, as it were, for public view, the advantages offered by the village and town of Andover not as a desirable place of residence and the opportunities it affords for the transaction of business. We are also desirous of doing everything possible to increase these advantages, and believe that in this we are marching a procession comprising a large majority of the citizens of the place. Acting under the influence of the hobby above alluded to, we have decided to devote a large portion of the space in this issue of the News to a review of some of the prominent features of this village, in a general way, and also to a few words concerning each of the more prominent business establishments within its borders. We make no idle boast when we say that no place in this or adjoining counties is showing a more progressive spirit at the present time than Andover. Outsiders who have a chance to visit this growing village bear testimony to this, and residents of the place whose business or pleasure calls them abroad are quick to recognize the fact. Without any intention of belittling the place as it has been in years past, we may say that during the last few years a spirit of enterprise and improvement has developed which surpasses anything of the kind heretofore existing. The time has seemed to be ripe for taking an advancing step, and the people have grasped the opportunities as they presented themselves. The improvement in educational facilities is perhaps as noticeable a beneficial as any thing we can mention. The improvement can be understood, to an institution which was already graded among very best graded schools of the county, a distinction which it has enjoyed for many years. But there is something better than a graded school, which is available for villages in the front rank of progress. In December, 1891, the Andover Union School was placed under the vision of the Regents of the State of New York, and the institution became a full fledged Academy. Large additions were made to the apparatus and the School has since possessed the best advantages for educating the youth who pursue their studies here. A steady increase has been shown in the attendance of foreign students and this year, being no exception, the number of students from outside is greater than in any previous year. Too much can not be said in praise of our excellent Union School Academy, and we have full faith that the education can find no better place at which to obtain it. Everything in and about the village denotes the same spirit of progress that is manifest in our educational matters. The village is governed according to the most advanced and most practical methods, by a Board of Trustees whose business ability and solicitude for the welfare of the village are apparent upon every hand. The streets are kept in the best condition, and substantial side walks every street render travel on foot a pleasure. Last fall the most perfect system of water works in this part of

The Woman's Christian Temperance Union of Andover meets the first and third Thursday in each month.

Over 11,000 immigrants were landed at Ellis Island, N. Y., during December, three thousand of them being unable to read or write, and more than half without trade or profession.

President Diaz, of Mexico, and Governor Nathan, of Georgia, have declared that prize fighting should not take place in their respective territories.

The educational exhibits at the World's Fair were so extended that the judges have only recently had time to report upon the largest group, No. 149. No single exhibit in that group, nor in all the educational displays of the White City attracted more attention, or excited more interest, than that of scientific temperance instruction in the public schools. The exhibitor, Mrs. Mary H. Hunt, of Boston, has been informed that this exhibit has been assigned five highest awards.

The associated press last week circulated an item from Washington, Iowa, which received very obscure positions in the daily papers, but which rejoiced the hearts of all temperance workers: It is this: "At a recent revival at Wellman a notorious saloon keeper was converted. To impress the public with his sincerity he extended a general invitation to a salvation conference in the public park at three o'clock. When the hour arrived nearly one thousand persons were gathered around a pile composed of billiard and gaming tables, four counters and sideboards, and other fixtures of the ex-saloon keeper's saloon. Prayers were offered by local clergymen and the pile was fired by the owner. While it blazed he made a temperance talk to the crowd. The public schools had been closed so that the children might witness the object lesson."

W. C. T. U. Resolutions

At the recent meeting of the County W. C. T. U., at Richburg, the following were among the resolutions adopted:

Resolved, that we from this time forward redouble our diligence and make more aggressive warfare individually and as an organization against this evil which, if not overcome, will prove the downfall of our nation.

Resolved, that woman's ever expanding field of labor in the home, in the church, in society, and in the industries, requires that she shall be endowed with equal political rights with men, therefore we urge that the delegates, Messrs. Church and Fuller, to the Constitutional Convention, labor for the exclusion of the word male from the constitution of our state.

Resolved, that we favor the enforcement of scientific temperance instruction in the public schools and the employment of teachers who are in sympathy with it, and also, the employment of ministers who oppose by precept and example, the use of tobacco in every form, and approve of the use of unfermented wine for sacramental purposes.

Resolved, that we, as heretofore, give our influence to that party whose platform best embodies our principles.

Mr. Albert Favorite, of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says: "I contracted a cold early last spring that settled on my lungs, and had hardly recovered from it when I caught another that hung on all summer and left me with a hacking cough which I thought I never would get rid of. I had used Chamberlain's Cough Remedy some 14 years ago with much success, and concluded to try it again. When I had got through with one bottle my cough had left me, and I have not suffered with a cough or cold since. I have recommended it to others, and all speak well of it." 50 cent bottles for sale by L. A. Burrows, druggist.
