

THE ANDOVER NEWS
ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR
ANDOVER, N. Y., April 4, 1894.

There is more trouble coming for the farmer. The 17 year locusts are due this summer. They haven't been around since 1877, and they have made regular visits ever since 1724.

The Washington police are making one of their spasmodic attempts to suppress policy playing, but they never interfere with the confidence men who work their game in the U. S. Capitol.

Valuable knowledge is sometimes worthless to its possessor. For instance, a Utah man sentenced to be hung for the murder of his wife is sole possessor of the exact location of a valuable gold mine.

Col. Breckenridge is called the "silver tongued orator." Miss Pollard, the young woman who has sued him for a large sum of money for breach of promise, evidently believes that his pockets are lined with silver.

Senator Sherman keeps in close financial touch with the administration, for a man who belongs to the opposition; so his recent statement that "an effort will be made in both houses to give authority to the Secretary (of the Treasury) to issue directly a 3 per cent bond," may be accepted as semi-official.

An impression seems to exist that the fellow who can't do anything else can write a spring poem, that will smell sweeter than a garden full of rose howers, after a night of soft May showers; and smoother read than a greengoods screed. This impression is several degrees worse than "that tired feeling," and calls for an old-fashioned dose of strong medicine as soon as the first symptom is felt.

It is said that if the government would pay its postage the postoffice department would be a self-supporting institution. Well, then, why doesn't it? We fail to see why the government should allow a lot of congressmen whose salaries are sufficient to pay such a thing as postage, "frank" a ton or two through the mails each year. We fail to see why business houses and newspapers should be held to such strict accountability and the government officials allowed to weigh down the mail with useless documents that are often private political schemes. There is talk of raising the rates of postage. There should be talk of lowering them.

We are under obligations to State Superintendent Crocker for a copy of the report of Superintendent of Public Instruction. Among other things we learn that 1,083,228 children are being educated in the public schools of this state, that there are 12,015 such schools and 32,476 teachers, that the teachers in city schools received an average of \$728 in wages last year which was \$12.40 less than the average for the previous year, while the average to the country teachers was \$303, an increase of \$6 over the previous year. The total expenditure for schools, including teachers' wages, cost of school buildings, repairs, furniture, etc., was \$15,944,186. The total valuation of all school property is \$49,918,605. This is a record for popular and universal education that the Empire State may rightly be proud of.

Within the past week there has been a material change in the political condition of the Hawaiian Islands. Briefly it may be summed up by saying that the natives are now coming out for annexation. Had the natives been left to their own devices there never would have been any serious opposition to the annexation of Hawaii to the United States.

The advocates of royalty have come to the conclusion that all hopes of restoration are passed and that it is politic for them to acquiesce with good grace. It is said that Liliuokalani has been advised of the fact that her restoration is impossible and that she will advocate annexation of the islands to the United States in order to receive some kind of bounty. It will be remembered that under the treaty presented by the commissioners of President Harrison, Liliuokalani was to receive \$20,000 a year in lieu of her resignation of all rights to the throne. It is in order to secure this indemnity that the ex Queen is said to favor annexation.

There is more trouble coming for the farmer. The 17 year locusts are due this summer. They haven't been around since 1877, and they have made regular visits ever since 1724.

INFLUENZA,

Or La Grippe, though occasionally epidemic, is always more or less prevalent. The best remedy for this complaint is Ayer's Cherry Pectoral.

"Last Spring, I was taken down with La Grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I begun taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete. It is truly a wonderful medicine."—W. H. WILLIAMS, Crook City, S. D.
