VICINITY NEWS.

A Few Things That Have Happened With-
in One or Two Hundred Miles
of Here.

Hammondsport had a \$20,000 fire one
day last week.

Cuba will vote on the electric light
question May 18th.

The district convention of the Y. P.
S. C. E. will be held at Friendship on
Monday and Tuesday, May 28th and
29th.

The Children's Home at Randolph
will receive \$5,000 from the estate of
the late John Satterfield of Buffalo, who
died in France, recently.

T. M. Davis has been confirmed as
postmaster at Alfred Centre. This ac-
tion will not tend to harmonize the Dem-
ocratic party in Allegany county.

Satoli, delegate of Pope Leo, who is
making this country a visit, will attend
the commencement exercises at St.
Bonaventure's college near Olean June
19th.

A century plant at the old Wads-
worth homestead in Genesee is about
to bloom. It is said this will be the
third time such a plant has blossomed
in Western New York.

The recent discovery of natural gas
near Scranton, Pa., has caused consider-
able excitement in business circles.
The vein which was opened by oil drill-
ers this week it is thought contains a
sufficient flow to supply Scranton with
lights and fuel if properly piped.

Nina Bennett, twelve year old daugh-
ter of Mr. and Mrs. A. W. Bennett, of
Belmont, took a dose of Paris Green,
one day last week, in a childish pet and
notified her mother of the fact soon
enough to have a doctor administer
remedies to counteract the effect of the
poison.

Joseph P. O'Hern of Cuba, who has
been abroad for the past two years
studying in Rome, has sailed from
Queenstown, Ireland, on his homeward
voyage. He will reach home in about
two weeks. Mr. O'Hern has been at-
tending the American College at Rome.
He graduated in 1891 at the University
at Rochester.

Mrs. Grover Cleveland, accompanied
by the babies Ruth and Esther, and
their nurse, and escorted by Private
Secretary Thurber, left Washington for
Buffalo over the Northern Central rail-
road Sunday. Mrs. Cleveland goes to
visit her mother, Mrs. Perrine, for a
few days before proceeding to Gray
Gables for the summer.

Frank Decker, a hard working, poor
and worthy young man of Woodhull,
recently received notice that a Mr. Good-
rich, who lived about four miles from
Oswego, had died and left him a legacy
of 180 acres of valuable timbered land,
worth about \$75 per acre, also \$10,000.
Mr. Decker went there a few days ago
and found the fact as stated.

Some unknown person on Sunday
drilled holes in the trunk line of the
United States pipe line about eight
miles from Athens, Pa., and set the
escaping oil on fire. The fire blazed
fiercely all day. Gangs of men have
been laboring to put it out, but without
success. The loss will be quite large.
The telegraph wires were also cut and
communication with the pump station at
Bradford, Pa., was cut off.

The acreage of beans in Wyoming
county will this season be largely in-
creased over that of previous years, as
the farmers find that beans are more
productive and profitable than wheat
or any other crop that can be raised.
During the past two or three years
beans have brought a price over double
that of wheat, and this for the common
marrows, while much money has been
made on the red kidney or naval bean.

The following men are announced to
deliver memorial addresses in this
county on Decoration Day, May 30th:
The Hon. Hamilton Ward, at Andover;
the Hon. S. M. Norton, at Angelica;
District-Attorney Charles H. Brown, at
Alfred Centre; the Rev. S. S. Ballou,
at Fillmore; the Rev. D. A. Blose, at
Bolivar; A. W. Litchard, at Belmont;
Senator C. T. Saxton, at Cuba; the Rev.
W. B. Wagoner, at Abbots; the Hon.
O. A. Fuller, at Scio.

The Wellsville Reporter says: "Mrs.
Emly Duke is in town a guest of the
Farnett House. She is at present en-
gaged at Belmont in supervising the
construction of the beach and pier."

of the firm of W. & J. Duke, which are
now deposited with the County Clerk.
Some years ago the heirs and executors
of the Joseph Duke estate started a law
suit against William Duke, for an ac-
counting and settlement of the estate.
The account claimed by the heirs is
\$100,000.

The deep well project still remains at
a standstill. Every resident of this field
would like to see the test made, but
quite a number of those who ought to
be deeply interested are not in favor of
paying their share of the expense. The
location of the well is also a much dis-
cussed question. It might be a good
idea to call a meeting of the producers
of Allegany county and have a commit-
tee appointed to take charge of the
matter and make a canvass for the nec-
essary funds. It ought to be an easy
matter to raise the required amount.
The majority of the producers favor the
drilling of a new well instead of drilling
an old one deeper. To make a thorough
and satisfactory test, it is proposed to
drill 3,000 feet.—Bolivar Breeze.

The School Faculty.

Mr. W. C. Cannon of this place has
been engaged by the Board of Educa-
tion as vice-principal of the Andover
school for next year. Mr. Cannon is
an alumnus of the Andover school, and
has taken the Teacher's training class,
and at the coming commencement will
complete a course in Philosophy and
Literature at Alfred University. An-
dover is to be congratulated upon
securing his services for next year.

Miss Julia Meade is retained for next
year, and will be transferred from the
Intermediate to the Junior department.
Miss Mary Wilcox is to be transferred
from the Second Primary to the Inter-
mediate.

Resolutions.

Adopted by the W. C. T. U. and the
I. O. G. T. of Andover, on the death of
Mrs. Martha Miner

WHEREAS, God, in his infinite love
and wisdom has removed from her life
of pain to her eternity of joy our be-
loved sister, Mrs. Martha Miner.

Resolved, That while we sorrow for the
companionship ended, and the earthly
usefulness cut off in its prime, we re-
joice in the influence of our sister,
which can never die, and which was
always cast for righteousness and tem-
perance.

Resolved, That we extend to her hus-
band and son, so heavily afflicted, and
to the brothers and sisters, our sym-
pathy, and commend them to the God
of all comfort, for the help He alone can
give.

Resolved, That we, as temperance
workers, be aroused to renewed activity,
in order that we may thus honor God,
and best commemorate our promoted
sister, whose heart was ever awake to
the need of earnestness in this line of
christian work.

Resolved, That the resolutions be pub-
lished in the Andover News, and that
a copy be sent to the bereaved family.

A Few Fools Yet Live.

About two weeks ago two men came
into the village of Hamlet, Chautauque
county; they said they were brothers,
and exhibited a model of a perpetual-
motion machine. Their plan was to
form a stock company, have the farmers
around take stock and erect a building
and machinery to supply power to the
factories and mills in the neighborhood.
Mr. Steadman, an industrious black-
smith of the village, indorsed the
scheme and helped it along with his
money. Much stock for the company
was contributed and a little lumber
hailed to the site, which had been dona-
ted by Mr. Steadman for the building.
Then it was that the Aldrich Brothers
gave out that they were called suddenly
away, but would return in three days.
Two weeks have passed, but all that
has been discovered of them or their
scheme is that the model had a false
bottom, under which was situated an
electric battery, which furnished power to
the perpetual-motion machine. The
whereabouts of the brothers cannot be
ascertained.

Oil Burned and Benzine Exploded.

Fire was started in the barrel house
of Emery's oil refinery in Bradford by
spontaneous combustion Sunday after-
noon. The refinery was destroyed. The
loading tank and five oil tank cars stand-
ing on a side track of the Buffalo, Roch-
ester, and Pittsburg road were also
burned. The fire was fierce and at-
tracted a large throng of sightseers.

The Bradford firemen fought desper-
ately to hold the flames in check, but
their streams only added energy to the
flames.

While the firemen were busy and
hundreds of spectators watched them
there was a violent explosion. A tank
car containing 4,100 gallons of benzine
blew up. A dome of the iron tank
was shot up into space 300 feet, and
came down with a crash an eighth of a
mile away. The broken fragments of
the tank took an upward course, and
the burning benzine which was hurled
up in the air consumed itself before
settling down upon the hundreds of
panic-stricken spectators and firemen.

For a moment following the explosion
everybody stood still, bewildered and
stunned by the shock. When great
volumes of fire were seen coming down
the spectators frantically rushed from
what seemed certain death.

In the mad scramble to get away a
score or more of men and women sus-
tained painful bruises and had their
garments torn to tatters. They were
trampled upon and piled up in heaps
in their eagerness to escape. About
thirty-five firemen had their faces, necks
and hands burned so that the skin
peeled off. Their moustaches and hair-
were burned off in many cases. Many
of the spectators were within 100 feet
of the tank when it blew up, but the
firemen were within less than half that
distance. None of the spectators were
seriously injured by the fire.
