 and for resolutions of respect, and local no-
 tifications, from which revenue is to

Advantages of Andover's Advantages.

The churches.
 The Union School and Academy that is not
 equalled by any school of its class as an in-
 stitute of learning.
 A newspaper that prints the news and
 what it can do. advertise the town and
 advantages, and also believes in doing
 better will increase those advantages.
 An incorporated village, whose affairs are
 conducted on business principles, giving the
 citizens the best administration of village
 affairs and a low rate of taxation.
 Pleasant residences, pleasant, shaded
 good sidewalks, all contributing to
 make it one of the most desirable places
 in the county that can be found.
 An abundant supply of natural gas for
 lighting, the convenience of which
 is not overestimated.
 A perfect system of water works, insuring
 protection from fire and an un-
 limited quantity of the purest of spring wa-
 ter for domestic use.

Keep this in mind always: We buy
 from the manufacturers direct.
 and sell on the way from the Moore
 factory. Prices will be lower
 than elsewhere.

The matter of organizing a Political
 Equality Club in this village is being
 discussed, and it is probable that a meet-
 ing of those interested in the project
 will be called in a few days. Those
 who are in sympathy with the cause of
 equal suffrage should hold themselves
 in readiness to do all in their power for
 the advancement of the work.

A leading merchant from one of our
 neighboring towns was recently heard
 to say that the people of Andover had
 a better understanding with their home
 merchants than those of most towns,
 and that it takes greater inducements
 to get trade from Andover than from
 any other town in the county. That
 looks as though Andover merchants
 were looking after the wants of the
 people in good shape.

Last Thursday evening the hose com-
 pany was out for a little practice. The
 tannery whistle tooted at 7 o'clock, and
 in less than two minutes one stream of
 water was flowing from a line of hose
 attached to the hydrant at the corner
 of Main and Center streets. A few
 seconds later another connection was
 made at the corner of Main and Elm
 street, and a fine exhibition was given
 of the utility of our water works sys-
 tem. The boys showed that they could
 get out to a fire in a hurry.

Four hundred and thirty-four signa-
 tures were obtained in this town to
 the equal suffrage petition recently cir-
 culated. The committee stated that a
 larger number of names could have been
 secured if more time had been allowed
 for canvassing. A very small per-
 centage of those who were asked refused to
 sign.

We would like to have it understood
 that what is said in the News office
 "goes." The public local and long dis-
 tance telephone station is now located
 in this office, and our readers can talk
 with almost any point, near by or far
 away, at a reasonable cost. When you
 want to use the telephone or pay your
 subscription, come in. Entrance
