The program for the Convention in session at Friendship this week is very complete and interesting. Some of our best speakers and much fine music are on the program...

At a Christian Endeavor meeting held recently in Coventry, England, an address on the pledge was given, whose outline was this acrostic:

Pray much. Live near Christ. Every day read His word. Do what He bids you. Go where He sends you. Ever ready to serve.

Now that Gov. Flower has signed the bill creating a home for the orphans and widows of soldiers, Bath is making an effort for the home. It is not believed that it would be a wise measure to have a home for both sexes in one institution, but a new home could be built adjacent to the present one and thus afford families communication with each other and render separation unnecessary.

The Erie has commenced burning bituminous coal on their class "1" freight engines on the western division. Several of the engines have been burning hard coal with considerable success, and it may develop into burning this class of coal on these engines altogether during the miners' strike.

The Erie company owns one of the most extensive anthracite coal regions in this country, and it would be a hard matter to stop the wheels of traffic on the Erie for want of bituminous coal, as most of their engines are equipped to burn hard coal, which owing to the fact that they mine this coal themselves, can be done at a nominal expense.
