

**THE ANDOVER NEWS**

ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR

ANDOVER, N. Y., June 27, 1894.

The discovery of anarchist plots seems to be developing into a regular industry on both sides of the Atlantic.

And now a new White House is wanted in Washington. There is no probability that it will be built this summer, though.

Belva Lockwood's success in getting admitted to practice before the Virginia courts after many rebuffs may persuade her to have another "go" at the presidency.

There is a man in Cattaraugus who had his arm amputated because it was incurably afflicted with rheumatism. If the rheumatism was cut off with the arm he may be able to end his days in peace.

All England is rejoicing over the birth of a royal baby. It is a boy and the mother is the Duchess of York. This makes Queen Victoria a great grand mother, and there are but three lives between her crown and the babe.

Of the uncertainty of a jury, Judge Ward said last week, in Buffalo: "As a lawyer and judge I have faced them a third of a century. You can never tell what 12 men have resolved to do when they stand up before you. No sensation can equal it."

Chauncey M. Depew is interested, with several other prominent men, in inducing William E. Gladstone to visit this country. Should Gladstone come hither his tour would be a continuous triumph. He may have enemies at home, but he has none in the United States of America. No other man in the world would be welcomed so heartily.

Sunday, the day on which President Carnot was assassinated, will long be memorable for the unprecedented number of fatal casualties in the waters of and near New York harbor. At seven different points there were accidents, resulting in a total loss of fifty lives, and there were as many other casualties in or near the harbor which fortunately did not add to the death list.

One woman's suffrage amendment submitted to the constitutional convention provides that women who pay taxes may vote upon the questions submitted to taxpayers. This would apply chiefly to the propositions to raise money in municipalities and towns for special purposes such as the construction of sewers, water-works, school and other public buildings, etc. It is right that women who are directly interested in such matters should have the right to vote upon them.

I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. **A Few of Andover's Advantages**

Five churches.  
A Union School and Academy that is attended by any school of its class as an organization of learning.  
A newspaper that prints the news of the town, and what it can to advertise the town's advantages, and also believes in doing what it can to increase those advantages.  
An incorporated village, whose affairs are conducted on business principles, giving residents the best administration of village affairs and a low rate of taxation.  
Handsome residences, pleasant, shade, good sidewalks, all contributing to make this one of the most desirable places in the county.  
An abundant supply of natural gas for lighting, the convenience of which is not overestimated.  
A perfect system of water works, insuring protection from fire and an abundance of the purest of spring water for domestic use.
