THE ANDOVER NEWS
ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, - EDITOR

ANDOVER, N. Y., July 11, 1894.

Last month Chicago was advertised as an ideal summer resort. This month the society people have given way to members of the State Militia and federal troops.

The governor of Illinois is believed to share the opinion that in neither sense of the phrase is it agreeable to be sat down upon by the burly and corpulent Mr. Cleveland.

If there ever was a time when "the office sought the man," that time is now so far in the time past that all the offices would be liable to die for want of exercise if there was nothing but manhunting to keep them alive.

"The union forever!" seems to be the cry of the members of the A. R. U. But it isn't as patriotic a cry as the words would seem to indicate, and evidently isn't uttered by the kind of men who make the best American citizens.

It is said that the French detectives have discovered the conspirators who, with Cesário Santo, plotted the assassination of President Carnot. If this is the case Santo may count confidently upon having company to share the honors of the guillotine.

Mr. Debs has entirely usurped the large place formerly held in the public mind by Mr. Coxey. It is doubtful if even a visit from Mr. Gladstone to this country would entirely detract public attention from the "pudd'in' head" president of the A. R. U.

It is said Wells, Fargo & Co's Express has requested the Erie Railroad Company to increase the speed of trains that carry express matter. It is now in order for the public to ask the Express company to decrease the express rates. There is greater need for this than for faster time.

A Washington newspaper believes that the senate has six presidental possibilities, and cites the names of Mr. Stevenson and Senators Teller, Cameron, Sherman, Gorman and Hill. And yet it is safe to say that when the presidental lightning begins to play in the zenith not one of these gentlemen will find it necessary to dodge.

Never complain of the weather. When it upsets your plans by raining in torrents you should take consolation in the thought that some of your friends are out on a picnic; and when the sun pours down in red-hot fury it may not be unpleasant to remember that your neighbor's lawn is being burnt to a dirty brown. One can look upon the bright side, if he will, even of the weather.

"MANY MICKLES MAKE A MUCKLE."

The census reports contain many curious facts which show the value, in the aggregate, of comparatively small things. In 1889 there were produced in this country 817,000,000 dozens of eggs, and it is quite probable that this does not give more than two-thirds of the entire product, because, in a vast number of cases, the quantity of eggs collected by a person would be too small to be included in the products of his farm or place. But at the number given in the census the egg product of the country is worth $100,000,000 at a very moderate estimate.

If to this we add the value of the poultry sold in the country, which is placed at $300,000,000 we get the large aggregate of $400,000,000 as the annual product of the poultry yards of the United States.

The department of agriculture reports the wheat crop of the country for 1893 at 515,949,000 bushels, valued at $322,111,881, from which it appears that the poultry product of the country is of a greater value than the wheat product by nearly 20 per cent. If the actual figures of the poultry product statistics could be obtained it is more than likely that they would exceed by 35 per cent. the value of the wheat grown in the country. The Scotch proverb that "many mickles make a muckle" applies with singular force to some of the sources of wealth in the United States.

Christian Endeavor Notes.

Word has been received that Rev. F. E. Clark, founder of the great C. E. movement, will speak at Silver Lake, July 17. Excursions will run from different points in the surrounding counties. It is expected that one of these passing through Andover will accommodate all who desire to attend from this place. The fare will be $1.25 round trip, and the gate fee only 15 cts., making it within the means of all to improve this opportunity which may never occur again.

The circle of the denominations that have adopted the Christian Endeavor Society is constantly widening, an omen which angurs well for the practical co-operation of Christians the world around in future years.

The Rev. Robert Clements of Cuba, pastor of the Presbyterian church of that place, is one of the delegates from this section to attend the National Convention.

It is to be hoped that the railroad troubles will not interfere with the convention to be held at Cleveland, July 11 and 12, as it is expected it will be one of the most profitable and glorious conventions ever held.

The Topic for July 15th is "Right and wrong ways of seeking." Eccl. 1: 12 18. Matt. 7: 7-11.

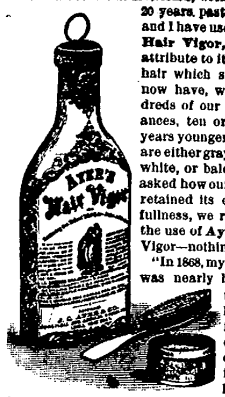
A Gentleman

Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 20 years past, my wife and I have used Ayer's Hair Vigor, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply, 'By the use of Ayer's Hair Vigor—nothing else.'"



"In 1868, my affianced was nearly bald, and the hair kept falling out every day. I induced her to use Ayer's Hair Vigor, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair-restorer. It is all that it is claimed to be."—Antonio Alarrun, Bastrop, Tex.
