**Senate and Assembly Re-apportionment.**

Mr. Lincoln of Cattaraugus is chairman of the sub-committee of the Constitution Convention's committee on legislative apportionment. The sub-committee yesterday reported to the full committee an amendment to the Constitution, providing for a Senate of 50 members, and an Assembly of 150 members.

The number of members of each house has been increased because with the present number there is no chance of increasing the representation from the smaller counties and giving them the rights to which they are entitled. The amendment will probably be reported favorably by the full committee and passed in this shape by the Constitution Convention. The matter of biennial sessions will be settled in the meantime, and also the boundaries of certain districts that have been left blank in the sub-committee's report.

By the proposed amendment, there will be 50 Senate Districts in this State instead of 32 as at present, and the counties of Allegany, Livingston and Wyoming will constitute the 46th District. Allegany county will continue to have one Assemblyman.

The case was tried before Judge Bartlett some time ago, the jury deciding against the plaintiff, and he asked for a new trial.
