

THE ANDOVER NEWS

ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR

ANDOVER, N. Y., August 1, 1894.

The members of the American Railway Union want to send Debs to Congress. Perhaps he would do as little harm there as anywhere.

There is war between China and Japan. Tea drinkers will please take notice and drink less tea or appropriate more money for their beverage.

The Republican State Committee met in New York Wednesday and named Saratoga as the place for holding the state convention. It will occur Sept. 18.

An effort is being made at Buffalo to raise money to cover the transportation of 3,000 Poles who wish to return to their native country owing to continuous lack of work in that city. That course would doubtless be cheaper in the long run, and much more satisfactory, than to support them through the poor department.

The new law regarding the reporting of births, deaths and marriages increases the fine from \$10 to \$100 for failure to report them, besides making the offender liable to a year's imprisonment. It may be interesting to the clergy to know that an opinion has already been given that under the new law regulating the registration of marriages, they cannot be recorded unless reported within ten days after they are solemnized.

It is announced that the contract for the transmission line for electrical power between Niagara Falls and Buffalo will be let within the next 10 days. The poles will be of steel 25 feet from the ground and set in concrete six feet below the surface, while the cables will be of copper wire six tenths of an inch in diameter. Difficulties in insulation on account of the high current are said to have been successfully met, and there is no doubt of the practicability of an undertaking which is fraught with great importance to Western New York, if not to the whole state.

A CHINESE PUZZLE.

A question that is causing the treasury department considerable bother just now is what to do with unregistered Chinamen. According to the official report made by Commissioner Miller, 107,000 had complied with the extended Geary law and registered. Official estimates place the number of Chinese in this country at 110,000, so that it would appear that there are now in the United States 3,000 unregistered Chinese, every one of whom, according to the law, must be sent out of the country.

There is no money appropriated for the purpose, and as it costs fully \$75 per head to send Chinaman back to China from the United States the aggregate amount required for the purpose will be quite large. In the meantime, under circular instructions sent out by the treasury, any citizen can appear before a United States commissioner and make complaint against an unregistered Chinaman, and United States marshals and customs officers are by law directed to do so. Secretary Carlisle and Attorney General Olney have the vexed question under consideration and will probably make some official announcement on the subject shortly.

A Bright Lad,

Ten years of age, but who declines to give his name to the public, makes this authorized, confidential statement to us:

"When I was one year old, my mamma died of consumption. The doctor said that I, too, would soon die, and all our neighbors thought that even if I did not die, I would never be able to walk, because I was so weak and puny. A gathering formed and broke under my arm. I hurt my finger and it gathered and threw out pieces of bone. If I hurt myself so as to break the skin, it was sure to become a running sore. I had to take lots of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. It has made me well and strong."
