

**THE ANDOVER NEWS**  
ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR  
ANDOVER, N. Y., August 22, 1894.

An Italian poet has brought suit against seventy-eight Italian papers for defamation of character. If seventy-eight American papers should get after one poet he'd be dead before he had time to make out his complaint.

If China were not in need of money, gunboats, firearms, ammunition, supplies and generals, she would be in good fighting shape. As it is the only thing she has to contribute to the fracas with Japan is an unlimited number of targets for the Japanese guns.

J. Sloat Fassett has declared himself a candidate for the Republican nomination for Governor this fall. Last week his own county endorsed his candidacy and issued an address to the Republicans of the State, urging his nomination. There are many Republicans in Allegany County who would be glad of another opportunity to vote for him, and it is not unlikely that he will secure the votes of the Allegany delegates in the State convention.

The new school law provides that the trustees must employ a man as truant officer, who sees that all children shall attend school or be arrested as truants. The State employs inspectors who visit the various schools to see the extent to which this act is complied with, and if it is not properly complied with one-half the public money is withdrawn from the district. Persons who employ children from eight to fourteen years old, who do not present a certificate showing the attendance of the child the required number of days, except in case of sickness, are fined \$50 for each offense.

An inventor has just discovered that there is enough latent energy in a cubic foot of air to kill a regiment and that this power "can be liberated by vibration." This is the Keely motor principle. As the air is composed of certain elements (gases), united in proper chemical proportions, it is simply necessary to produce a vibration of sufficient intensity to make a new chemical combination, and there you have the power. But if all the agitation that has been produced in Congressional, political and business circles in the past year hasn't been sufficient to do this, we are at a loss to think of anything that will.

New York, the county having the largest proportion of foreign-born, and Schoharie, the county having the smallest, are both strongly Democratic. So, oddly enough, is Queens county, which has the largest number of colored voters. St. Lawrence, on the other hand, which has the smallest proportion of colored voters, is overwhelmingly Republican. These are some of the paradoxes of politics in New York State, which has alternated between the two parties in Presidential elections for 30 years, as follows: 1864, Republican; 1868, Democratic; 1872, Republican; 1876, Democratic; 1880, Republican; 1884, Democratic; 1888, Republican; 1892, Democratic.

Last Thursday, President Cleveland went to his summer home, Gray Gables, at Buzzards Bay, and took with him a copy of the tariff bill and an attack of malaria. The chills that run up his back as he reviews the bill are supposed to offset the fever brought on by the malaria. The most interesting picture the illustrated newspapers could print just now would be a photograph of Grover's language as he contemplates the act of "perfidy and dishonor" committed by the members of his party in Congress, who passed a bill containing provisions so at variance with the platform of the party and Mr. Cleveland's idea of what true Democracy really is, and to which he is expected to affix his official signature.

At Chautauque the other day Mrs. Emma P. Ewing, the noted instructor in cooking, lectured on the missing link. "When women learn to be better cooks and better housewives," says this high authority, "when they pay more attention to making bread and less to organized opposition to the traffic in intoxicating drinks, then, and not till then, will the growing intemperance of the land receive its death blow. A man that's well fed, that begins the day with the sustaining powers of a good, substantial, well cooked, daintily prepared breakfast, will not require the stimulating effects of beer or brandy to help him through his day's work, be it either in ditching or on the judge's bench." Mrs. Ewing neglected, however, to give her hearers the recipe for preparing a good, substantial, well cooked breakfast with not even a dry crust of bread and a few potato skins as raw material.

**GREENWOOD NEWS.**

Our village school will commence Sept. 10. The teachers engaged are Prof. Granter principal, Miss Higgins of Howard intermediate and Miss Walker of Andover for the primary department.

The Miner school will be taught by Agnes Miller, the Mead school by Gussie Pease, the Lane school by Emma Brewster and the Putman school, district No. 1, by Laura Smith.

Rev. J. R. Wells and wife of Silver Springs returned home the latter part of last week.

Rev. D. E. Stiles returned Saturday from Silver Lake Assembly.

Several of our townspeople attended the firemen's parade at Bath last Thursday.

Gertrude and Grace Bardeen returned to their home in Penn Yan last Saturday.

Edward Reimann and wife, who have been spending a few weeks with relatives here, have returned to their home in Machias.

Will Reimann and wife entertained a party of their friends one evening last week.

A brand new boy baby at Drew Erstley's is what makes Drew smile. It is reported that Al. Edwards and Meva Erskins were married last Sunday.

A new barn has just been built for Ed. Ferris.

Mr. Whitford is enlarging and re-roofing his house.

Mr. Vail has returned to his home in Pennsylvania.

Mrs. N. E. Coston visited relatives in Andover a few days recently.

Last Friday a man and his wife, with a baby in its carriage, passed through this place on foot. They were traveling from Horrellsville to the lumber woods in Pennsylvania, in search of work.

The lawn social at P. E. Stephens' last week Tuesday evening was well attended, about 80 persons being present. The lawn was lighted by torches, and all seemed to enjoy the blackberries, cream biscuit and cakes. The proceeds go towards the salary of Rev. Mr. Chatman.

Mr. Clark and wife of Syracuse have been visiting their parents, Edgar Norton and wife, for the past two weeks.

On Wednesday evening a social was held at N. E. Coston's for the benefit of the M. E. Sunday School. As each lady sold her nose to the highest bidder, much amusement was created. But we could not understand why a small nose brought 40 cents and a large one only 25! No small amount of fun and \$8.00 were realized from the sociable.

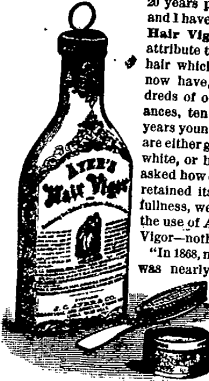

The interior of the Putman school house has been torn out and is to be repaired. Patent seats will replace the old ones.

Frank Pettibone, cheesemaker on Dryden Hill, died Sunday morning, August 19, of erysipelas. The deceased formerly resided in Hartsville, and was highly respected. This be-

reavement falls heavily upon many sorrowing friends, as well as the immediate family. Much sympathy is expressed for Mrs. Pettibone, who but a few weeks ago lost her only brother, who lived in the west. The remains of Mr. Pettibone were taken to Alfred Station on Tuesday, where the funeral and interment took place. Mr. Smith and wife of New York are visiting their sister, Susan Miner.

**A Gentleman**

Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 20 years past, my wife and I have used Ayer's Hair Vigor, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply, 'By the use of Ayer's Hair Vigor—nothing else.'" "In 1838, my affianced was nearly bald, and the hair kept falling out every day. I induced her to use Ayer's Hair Vigor, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair restorer. It is all that it is claimed to be."—Antonio Alarrun, Bastrop, Tex.

**About 200,000 Feet of Hemlock,**

**BARNEY BROS. MILL,**

in West Union. Also a Portion of said Lumber is at my dwelling-house and on my lot in Andover. Those wishing Lumber there inquire of G. M. Barney. Bill Stuff sawed on application. A. C. BARNEY.

**FARMERS, HAVE YOU EXAMINED THE NEWMAN WIRE TRUSS FENCE?**

It is the cheapest fence on the market, and also the most durable. It is simple in construction, firm and neat. It is also used extensively as a door-yard and cemetery fence. Every person using fence should examine it. Write or call on C. L. Witter, Andover, N. Y. Agent for Almond, Alfred, Andover, and Independence. A specimen of this fence may be seen at the Kemp farm, one mile east of Andover village.

**THE ANDOVER NEWS.**

The News office is located in the Prest Block on Main street. Entrance through the hallway, first door north of Lever's store.

A meeting of the Allegany County Public Association, held at Bolivar, April 29. The following resolutions were unanimously adopted: That not less than 5 cents per line be paid for resolutions of respect, and local papers for entertainments from which revenue is derived. That cards of thanks be charged \$1. That obituary notices, except such as are published as a matter of news, and lists of wills be charged for at not less than 50 cents per line.

**Advantages of Andover's Advantages**

fire churches. A Union School and Academy that is called by any school of its class as an institution of learning. A newspaper that prints the news as it comes, and also believes in doing what it can to advertise the town and its advantages, and also believes in doing what it can to increase those advantages. An incorporated village, whose affairs are conducted on business principles, giving the inhabitants the best administration of village and a low rate of taxation. Handsome residences, pleasant, shady streets, good sidewalks, all contributing to make this one of the most desirable places of residence that can be found. An abundant supply of natural gas for cooking lights, the convenience of which is not overestimated. A perfect system of water works, insuring the protection from fire and an abundance of the purest of spring water for domestic use.

Shiloh's Cure is sold on a guarantee. In case of incipient consumption, it is the best. Only one cent. 50c, and \$1.
