Taxx: "They escaped into the land of Armenia."—If Rings xix., 37.

In Bible geography this is the first time that Armenia appears, called then by the same name as now. Armenia is chiefly, a tableland, 7000 feet above the level of the sea, and on one of its peaks Noah's ark landed, with its human family and fauna that were to fill the earth. That region was the birthplace of the rivers which fertilized the garden of Eden when Adam and Eve lived there, their only roof the crystal skies and their carpet the emeral of rich grass. In the state of the Gaucasian race. Their state of the same than the same than the same than the same that were a same their carpet the control of the Bible. Their slaviour is our christ. The Bible. Their slaviour is our christ. To drive them from the face of the earth is the ambition of all Mohammedans. To accomplish this murder is no crime, and wholesale massacre is a matter of enthusiastic approbation and Governmental reward.

The prayer sanctioned by highest Mohammedan suthority and recited every day throughout Turkey and Exppt, while styling all those not Mohammedans sandless, is a follows: "O Lord of all creatures!" O Aliah! Destroy the infidels and polytheists, thine enemies, the enemies of the religion. O Allah, make their children orphans and deflictheir bodies, cause their feet to slip, give them and their friends, their possessions and their relatives by marriage, their brothers, and their friends, their possessions and the race, their wealth and their lands as booty to the Noslems, O Lord of all creatures!" The life of an Armenian in the presence of those who makes that Parayer is of no more value than their possessions and their relatives by marriage, their brothers, and their friends, their possessions and the race, their wealth and their lands as booty to the Noslems, O Lord of all creatures!" Why, after all the National and confinental and hemispheric lying on the part of the Turkish Government, do not the warstlips of Europe ride up as close as is possible to the paleaces of Constantinople and blow that accursed Government to atoms? This is the way the Turkish Government amuses itself in time of peace. These are the delights of Turkish divilization. But what the days of massacre come, then deeds are done which may not be unvoiced in any refined assemblage, and if one speaks of the horrors, he must do so in well poised and cautious vocabulary. Hundreds of villages destroyed! Young men put in piles of brushwood, which are then saturated with kerosme and act on fire! But what is the duty of the hour? Sympathy, deep, wide, tremendous, immediate! A religious paper, the Christian Herald, of New York, has led the way with munificent contributions collected from its subscribers. But the Turkish Government is opposed to any relief of the Armenian sufferers, as I personally know, Last August, before I had any idea of becoming a fellow clitzen with you Wasbingtonians, 259,000 for Armenian relief was offered me if I would personally take that relief to Armenia. She conducts a small restaurant on Sixth ave. "I had been superintendent of the Indian school at the agency," she said yesterday, "and made so many friends among the red men that when I left the chiefs held a council and extended me an invitation to return. Everybody knows about the ghost dances, and how the Ladians armed themseives and went into the Bad Lands on the war-path. They declined to receive messengers from the Government, and as the fate of hundreds of soldiers depended on General Miles getting information from them. I decided to go and have a talk with them, relying for my safety on my previous friendly relations with them. ...

I learned that 1,200 Indians were camping in the Bad Lands, awaiting an attack from the soldiers, whom they intended to encourse is whom they intended to engage in battle, while Red Cloud and a strong

force advanced from another direction and captured the agency. "Little Wound decided to go out and advise his friends to come into the agency and make peace. He succeeded in getting the other chiefs to consent, but they arrived on the outskirts of the reservation just a day after the battle of Wounded Knee. Upon learn-ing of that battle the Indians suspected treachery. They arrested Little Wound, and went into camp outside the reservation.

"General Miles was about to order an attack—upon the Indians—when I informed him of their suspicions, and told him that if I went out and explain-ed how the battle of Wounded Knee came to be fought. I thought they would come in peaceably. The General consented to delay the attack. I went into the Indian camp, explainof wait and the finance camp, explained matters to the chiefs, and came out unmolested. A half-hour later the hostiles were in the agency and the uprising was at an end."
