### Andover News.

WEDNESDAY, MARCH 11, 1896.

The largest decrease in the number of deaths from diphtheria last year occurred where the serum ours was most generally adopted—in New Yorl City.

The new naval register shows that the United States now stands fifth among the naval Powers of the earth, having advanced five points within the last five years.

The Mississipi Legislature has passed a bill, which has become a law, imposing a fine of not less than \$10 or more than \$50 and imprisonment for not less than thirty days upon conviction of carrying concealed weapons of any kind, and has forbidden the judge be fore whom the case is tried exercising any discretion in pronouncing sentence, excepting as to the amount of the fine.

A new State Capitol is building at Olympia, Wash., and, as far as possible, learns the New York Sun, no material except that produced in the State is to be used in its construction. In the matter of lumber, for whatever purpose, only such as is grown in Washington is to be used. There was considerable fuss a few days ago over the allegation that some Eastern oak was to be used for certain parts of the building. The Governor hastened to assure the agitated people of the State that the rumor was unfounded.

Already new uses for the myster lous X rays of the vacuum tube are mggested, apart from the picturing of objects invisible to the naked eye. hint, which seems particularly promising, is that they may serve to lestroy bacteria. It has long been known that sunlight is a potent destroyer of noxious germs, and the general belief is that it is the actinic tays that chiefly have such action. if the X rays are merely the invisible ultra-violet rays of the spectrum, they are probably the most ectinic of all. Indeed, that is indicated by their effect upon photographic plates. Then they may prove to be powerful germicide agents, and it nay be needful only to pass them through the human body to destroy all the noxious bacteria in the most emote and inaccessible tissues. sourse that is mere speculation. But n these days it is rash to say any thing is impossible.

The Nashville Sun says: We have often heard rumors and reports of sapital coming South, when it did not some in sufficient quantities to benfit us much. Many people have beskeptical on this account, and while some have gone heroically to work to make the best of our natural dvantages, many are still waiting and will wait until their opportuninities shall have come and gone, and they will still be empty handed. There is not any doubt about the fact that capital is now coming, and will continue to come South in larger volume, year after year, from now on, because the South is the best field in the United States for profitable investment. The Atlanta Exposition did immense good in drawing attention to the natural advantages of the South, and the Nashville Exposition will do still greater good when it is held. Mr. J. C. Canton, who is a far-seeing and an enterprising man, who has had long experience in railroad building, said in an interview at Chattanoogs, the other day: "Well, I am working very hard at present for the West, but it is dead. My syndicate is now building a railroad from Portland to Astoria, Oregon, which will cost about \$8. 000,000. The line will be about 110 miles long. The West is a dead card: there is no life there. All of the capitalists now say that their money will ain and that the next hoom from the East will come South I honestly think this, and do not say it because I think it will please the people of this section, as that is, noth ing to me. The South is the place, and more money will be spent on it before long than has ever come this wey before."

## AFFAIRS IN CONGRESS

Matters of Importance Before the National Legislature.

THE CUBAN RESOLUTION TO-DAY

ce Réport To Be Called Up-De bate on the Dupont Case May End in a Few Days-Appropriation Bills in the Ho

Washington, March 9 .- The confe ence report on the Cuban resolution will be called up in the senate this af-When the report was preternoon. When the report was pre-sented on Thursday last by Mr. Sher-man, wherein the senate receded from its own resolutions and agreed 'those passed by the house, objection to present consideration was made by Mr. present consideration was made by Mr. Hale of Maine. Mr. Sherman the gave notice that he would call the report up this afternoon. A conference report being privileged, it has the right of way. Mr. Hale, it & understood, will take the opportunity thus of fered to explain why he voted against the resolutions when they were before the senate for consideration. Mr. Chendler who did not participate in the senate for consideration. Mr. Chandler, who did not participate in the debate at the time, but who voted for the resolutions, may also make a short speech, in which he will state his views, which are more extreme than those of his colleagues. Mr. Chandler holds that this government should not only declare the independence of the island of Cuba, but that the United States should set up that independence and notify. Spain and the whole world that she was ready and able to maintain it.

The Dupont Case.

The Dupont Cas The Dupont case, involving the legality of the alleged election in Delaware, still holds its place as the unfinished business. Mr. Thrpie of Indiana has the floor for to-day. His speech will be replied to by Mr. Pritchard of North Carolina a memspeech will be replied to b Pritchard, of North Carolina, a ber of the committee. Mr. Gray of Delaware and Mr. Burrows of Michi-Delaware and Mr. Burrows of Metha-gan will also speak on this subject during the week. There is a general belief that the debate will end this week, for there is no disposition on the part of the democrats to delay the vote. Mr. Gray, representing the democrats, says there is a plain case democrats, says there is a plain case against the legality of the claim of Mr. Dupont, and that if the senate votes according to the facts as they are presented, Mr. Dupont will not be seated. Mr. Mitchell is equally firm in his belief that there can be but one side to the case, and that Mr. Dupont will be seated. The impression among republicants is that Mr. Dupont will get publicans is that Mr. Dupont will get puolicans is that Mr. Dupont will get the solid vote of the republicans, to-gether with one and, perhaps, two populist votes. This, of course, would give him his seat. The silver men ap-pear to have been carefully sounded on the subject and those interested in on the subject and those interessed in the case say that silver will not figure in the matter at all, but that the case will be decided on its merits entirely, even though the seating of Dupont does mean one more anti-silver vote in the senate.

The Fur Seal Bill.

The bill to prevent the extermination of the fur seals of Alaska, which seeks to prevent such extermination by exterminating them under the authority of the United States and thereby preventing the further exercise of cruelty her belong to scalery. Less here preventing the turner exercise of cruelty by pelagic scalers, has been made the special order for Thursday. This measure will cause some debate, at least on the part of Senafor Morgan, who is bitterly opposed to its provisions, and was defeated in committee by experience of only one a majority of only one.

In the House, It is the expectation of the house managers to devote almost all this managers to devote almost all this week to the consideration of appropriation bills and the contested election case of Aldrich vs. Robbins, from the fourth Alabama district. The post-office appropriation bill is the pending business, and when it has been disposed of the election case will be taken up, unless the illness of Mr. Turner, dem., Ga., a member of the committee report Ga., a memoer of the committee report-ing the case, should necessitate a post-ponement. The naval appropriation bill is the next in line for considera-

#### THE DRIEBUND'S FUTURE.

peror William To Confer with Austria's Minister of Foreign Affairs.

Berlin, March 9.—The emperor will eccive Count Goluchowski, the Ausrian minister of foreign affairs, this trian minister of foreign affairs, this afternoon, with unusually great state ceremony, and this is accepted as marking the importance of the Austrian minister's visit to Berlin, which it is generally believed has for its object a conference upon the subject of the future of driebund, in view of the recent events in Italy.

Britannia Won by Thirty-five Seconds. Hyeres, March 9.—In the regattresterday, although the Satanita and the Ailsa started some minutes before the Britannia, the letter yacht won by WHITE MEN TO BLAME.

inting of a Negro Caused Phili-phia's Fearful Tragedy.

Philadelphia, March 9.—From Philadelphia, marchitat that can be learned, the fight here Saturday night between George Queen, colored, and a number of white men, during which Queen: stabbed, and killed John O'Brien, fatally cut Joseph killed John O'Arien, fatally cut observed Sweeney and quite seriously wounded Thomas Reaney and Charles Fisher, all white, it would seem that the white men were largely to blame. Earlier men were largely to blame. Earlier in the evening they had taunted Queen as he passed them on the street and a little later they became involved in a quarrel with another colored man chased him for some distance to beat After his first encounter with him. After his first encounter with the whites Queen returned home and armed himself with a large butcher knife and returned to the street. An eyewitness says that the white men assaulted Queen and that he used the knife against a crowd of six assailants. Whether Oneen was assaulted or Whether Queen was assaulted or whether he made the attack with the whether he made the attack with the knife will probably not develop until the coroner's inquest. Queen made no attempt to escape after the fight, and was arrested and locked up. He was committed to fail without bail to await the action of the coroner. In his antethe action of the coroner. In his ance-mortem statement taken at the hospi-tal Sweeney says that he had nothing to do with the fight and was attracted to the scene by the struggling men in the street and that the assault upon him was entirely unprovoked. Fisher made a similar statement.

BRUTALLY ASSAULTED A GIRL

Nicholas Cole, Arrested in Paterson, May Sullivan's Murdere

Paterson, N. J., March 9.—Nicholas Cole, 40 years old, of the silk throwing firm of Nightingale & Cole, was arrested last night charged with having rested last-night charged with having committed a brutal assault on Miss Lizzie Van Riper, aged 18 years, near the corner of East Eighteenth and Ellison streets, which is two blocks from the place where Mary E. Sullivan was murdered on Wednesday evening. It is alleged that he followed the girl for is alleged that he followed the girl for about one hundred yards, and when at a lonesome spot, caught her by the neck. She cried for help, but had scarcely screamed when he seized her by the throat and struck her twice in the mouth with his fist, causing blood to flow. Cole, seeing someone approaching, ran away, but was soon overtaken by a policeman. A crowd of nearly one thousand persons surrounded the prisoner and followed him to the station and though the property of the property of the state to the station and threats to lynch him were heard on every side. The police were heard on every side. to-day think that Cole possibly is con-nected with the Sullivan murder and have begun an investigation on that

SCALDED BY BOILING TAR.

Five Workmen Injured at the Standard Oil Works, Bayonne, N. J. New York, March 9 .- Boiling hot

erude tar overnowed one of tanks soon after midnight in the company's yard of Ravonne, N. J. A gang of men at rude tar overflowed one of the Stanatter manight in the company's yard at Bayonne, N. J. A gang of men at work about the tank ran for their lives, but five of them were overtaken and severely scalded. No one was fatally injured. The men were at work at stills from which the tar oil. was being pumped into the tank. The tar boiled over the side of the tank in as torrent. It covered the pipes so that the men who tried to close them were burned on their hands. It flooded about their feet and burned through their heavy shoes. They ran, uttering shouts of pain and alarm. In a minute shouts of pain and atarm. In a minute the neighborhood of the tank was deserted. The engine was stopped and the pumps ceased working. The frozen ground cooled the tar, but its progress did not stop until an acre back box account.

#### RECEIVERS APPOINTED.

Pittsburg & Belle Vernon Coal Comin Financial Difficulty.

Pittsburg, March 9.—On petition of the National bank of Western Pennsylvania and the Citizens' National bank G. W. Darr and S. N. McElvoy have G. W. Darr and S. N. McElvoy have been appointed receivers for the Pitts-burg & Belle Vernon Coal company, The capital stock of the company is \$200,000, but it is charged with debts of \$140,000 and a contingent liability of \$40,000, over \$105,000 of the entire indebtedness being discounted paper held by several banks.

COOPER UNION HALL OVERCROWDED

Eva Booth Speaks Tenderly of Her Brother at Buffalo, But Counsels Obedience.

New York, March 9.-Mr. and Mrs Ballington. Booth addressed an immense audience at Cooper Union last night. It was one of the largest gatherings ever held in the historic building. A few minutes after the doors wer opened there was not an unoccupie opened there was not an unoccupied seat in the hall, and it was estimated that 5,000 men, women and children were turned away. The stage was decorated with the national flage, many of them having pictures of Washington on them. A large crayon portrait of Washington occupied the portrait of Washington occur center of the stage. At pr o'clock Mr. and Mrs. Booth appe on the stage and the immense audience fairly went wild with enthusiasm. Hats, handkerchiefs, flags, canes and cheered and shouted for fully fifteen minutes without ceasing. During this time Mr. Booth stood with bowed head, while Mrs. Booth knelt in prayer Someone shouted "Three cheers commander." cheers were given for another interval of ten minutes and the crowd went fairly wild with enthusiasm. Cheer after cheer was given for Mr. and Mrs. ter cheer was given for Mr. and Mrs. Booth. Major Peter Glen then ad-Booth. dessed the audience as follows: "This is not a meeting where we have come together to talk about that which seems uppermost in everyone's mind. We are here to have a purely spiritual meeting.

Ballington Booth's Address

Mr. Booth then led in prayer, and at its conclusion spoke as follows: "Mrs. Booth and myself have not come to this gathering for the purpose of alluding to the recent sadevents in our experience. It is true that after dealing the thought we have decided to liberate thought we have decided to inaugurate a new movement. (Cheers.) To Convert the Middle Clas

"Could it have been avoided, it would and have been shought of. Mrs. Booth and I received assurances from the people of the United States, fighting on behalf of Jesus Christ, that we had done a work for which they were grateful and would not quietly submit that and would not query submit that we should retire to private life and relinquish a field which is the largest of any on the globe; where there is not only work for one Salvation Army, but for a hundred. We have resolved to the best forms will the salvation of the salvation. to the best of our ability to do some to the Best of our ability to do some-thing to bring over the middle or arti-san classes to God. We do not intend to enter into any battle or strife with the Salvation Army. We want no fight, neither ritual or verbal. We want to have a mission to reach the masses. We have resolved that the consecration we shall make shall be lesting. we shall make shall be lasting."

New Movement's Name Not Chos New Movement's Name Not Chosen.

Mr. Booth then spoke of the heart and mind in religion, and closed by saying: "I want to assure Mrs. Booth and those officers who have taken a stand by me that by faith I see in the distant future a movement that we will not regret having linked our names with." Mrs. Booth spoke briefly and was cheered enthusiastically. She made 'no reference to the troubles in the ranks of the army. Mr. Booth said in an interview that the name of the new movement had not been the new movement had not chosen, and that the name of the auxiliary league would be "The De-fenders' League." A monster mass meeting will be held, he said, at Car-negie hall at some near date.

#### EVA BOOTH IN BUFFALO

The Speaks Tenderly of Her Brother, But

Buffalo, March 9 .- Commissioner Eve Booth addressed crowded audiences in Music hall yesterday afternoon and last evening in which she spoke ten-derly of her brother, Ballington Booth, while making an impassioned plea for while making an impassioned plea for the principles on which the Salvation Army...is founded. "My position as your leader," she said, "my position as a sister of your late commander, with the strong love of sisterhood still burning in my bosom, may fain cause me to refrain from speaking one word on the-painful subject except those I could breathe in the breath of prayer when I kneel down at my Master's feet." She then went on to refer to similar crises, through which the army movement had safely passed and contended that the principles of the army were dearer to them all than the dear. were dearer to them all than the dea est of human ties, even the ties of flesh and blood. Commissioner John A. Carleton also spoke, upholding obedi-ence to army rules and regulations. Eva will address snother meeting this evening in Asbury M. E. church
