

THE ANDOVER NEWS

ONE DOLLAR A YEAR.

HAMILTON C. NORRIS, EDITOR

ANDOVER, N. Y., May 6, 1896.

Miss Nomination's woosers never give her a chance to realize that it's leap year.

In addition to her other troubles Spain is suffering from a drouth which may cause a famine.

Cents makes dollars all right enough, but no case has yet been known in which dollars made sense.

New York city is getting too good, we fear. A store keeper was arrested and fined \$5 for selling a man a collar on Sunday.

Chicago met greater New York with a new census, but the result doesn't appear to have been altogether satisfactory.

Republicans may as well get ready to hurrah for McKinley, as his nomination for President seems a foregone conclusion.

As wide apart as McKinley and Bland are in most things, they have one thing in common—both are being fought by the A. P. A.

It is difficult to cripple a community which begins to rebuild by moonlight, after a big fire, as the residents of Cripple Creek, Col., did.

The man and his wife who are trying to do missionary work among the millionaires of New York city deserve every encouragement. It would be difficult to locate a field more in need of missionary work.

A large portion of the eggs used in this country are for various manufacturing purposes. The calico print works use over 40,000,000 dozen of eggs each year—the wine clarifiers 10,000,000 dozen of eggs—the photographic establishments millions of dozens more—while the bookbinders, kid glove manufacturers, and leather finishers, use eggs by millions.

The Buffalo Express, in speaking of work done in the Legislature the past winter by members from Western New York, says: "Unquestionably the best record of any Western New York man in this Legislature has been made by Fred A. Robbins, who has just finished his third term as Allegany's representative in the House. Mr. Robbins has demonstrated that he is above the ordinary run of Assemblymen, and he has also demonstrated that a member of the Legislature can represent his constituents at all times if he chooses to. Last year Mr. Robbins attracted the attention of the House, and it was frequently said that he was made of the stuff that becomes good Speakers. He has shown this year that he has qualities which well fit him for the Speakership and that they are of a character not possessed by most occupants of the chair in these days."

It long has been maintained that the safest place in the world is on a first-class railroad train, traveling at a high rate of speed. This opinion has been fortified in an official manner. The report of the Inter-State Commerce Committee for the year ending June 1, 1895, showed that one passenger was killed for every 1,985, 153 passengers carried, and one was injured for every 183,822 carried. The report further showed that a man's chances against injury were such that he would have to travel 4,406,659 miles before getting hurt, and go 47,588,966 miles before being killed. At the rate of thirty miles an hour a man could travel, if nature permitted, on American railways for one hundred and eighty-one years, without leaving the cars, before being killed, or with the same amount of security against accidents he could go around the earth nineteen hundred and three times before meeting his death by accident, and one hundred and seventy-six times before getting hurt.

The News office does the best job of printing.

Governor Morton has designated Hon. Hamilton Ward of Belmont as Associate Judge of the Appellate Division of the Supreme Court for the Fourth Judicial Department.

Wonder what Senator Gorman meant when he said: "I believe that the practical business men will control the national conventions this year as they have done in the past."

You can now have your head made bald while you wait, by exposing it to the X rays. High tempered wives will please take notice that it is not up-to-date to pull a man's hair out by hand.

Gov. Morton has signed Assemblyman H. T. Andrew's bill regulating the employment of women and children in mercantile establishments. The bill provides that no male under 16 years old and no female under 21 years old, employed in any mercantile establishment of this state shall be required to work more than sixty hours in any one week, nor more than ten hours in any one day, unless for the purpose of making a shorter work day on some one day of the week.

A Sufferer Cured

"Every season, from the time I was two years old, I suffered dreadfully from erysipelas, which kept growing worse until my hands were almost useless. The bones softened so that they would bend, and several of my fingers are now crooked from this cause—On my hand I carry large scars, which, but for

AYER'S

Sarsaparilla, would be sores, provided I was alive and able to carry anything. Eight bottles of

Ayer's Sarsaparilla cured me, so that I have had no return of the disease for more than twenty years. The first bottle seemed to reach the spot and a persistent use of it has perfected the cure."—O. C. DAVIS, Wautoma, Wis.

offers his entire line of Harnesses at prices that cannot be duplicated.

Call and inspect my line. You are pretty sure to find what you want and the low price will do the rest.

N. PERKINS,
MAIN STREET,
ANDOVER, N. Y.

Observe the Difference.

In larger places clothiers are paying thousands of dollars annually for their rent. Their other expenses are equally large and those expenses must be made from profits. They are obliged, therefore, to sell their goods at a good margin. We, however, are paying very little for rent. Our other expenses are comparatively small. We are buying our goods from the best American manufacturers, as cheap as any dealer in the market. You will understand now why

WE CAN SELL CHEAPER.

You certainly can save at least 33 per cent. on every article that you may purchase in our store. Is it not worth saving? Would it not pay you to make your purchases at our store? We carry a full line of

CLOTHING AND GENT'S FURNISHING GOODS

Our beautiful assortment of fine Negligee shirts, all colors and shades, is the talk of the town. You will do well to call on us. Remember the place.

A SILK SALE.

Beginning Wednesday, May 13th.

The decided changes that have just taken place in the silk market have had havoc with silk prices. We took advantage of the drop in prices in several instances, and bought some silks very low prices.

We place these together with a large amount of our present silk stock and propose to make out of them one Big Silk Sale. This means that silks of all kinds for dresses, for waists, for trimmings, etc., are to be offered at prices that will cause you to open your eyes.

We're doing this just when silks are at their most desirable—for everyone is to have a waist or a silk gown this season.

They are all bright, desirable goods, full of styles and qualities.

We're going to sell silks at a pretty pace during the sale, and you can't get as well be a gainer.

The sale is to be held on Wednesday, Friday and Saturday, May 13th, 15th and 16th.

Large samples of silks will be sent during the progress of the sale.

Are you INTERESTED IN SILKS, at your TIME. Silks never were so cheap as now. They won't be sold at such low prices again for a long time to come. Don't mistake the dates.
