Eugene V. Debs was invited by the Chicago University students to adlyess them, but the faculty wouldn't allow it. They think Debs is a dangerous man, explains the New England Homestead.

Chicago is very much afraid that Canada might invade her, in case of trouble with England, and is loudly demanding a big share of the cash appropriated for fortifications. the matter with the brick battleship, Illinois? asks the New Orleans Picayune.

It is the announced purpose of Andrew Carnegie to make of Pittsburg "art centre" of America, by an annual "salon" exhibition after the manner of the Paris Salon. To induce the world's artists to send pictures for exhibition he has decided to give \$50,000 a year for the purchase of prize winners.

Buffalo Bill is said, in Farm, Field and Fireside, to be the best known American citizen. In Germany he is looked upon as a general, in France, England and Ireland as the most prominent Presidential candidate, and Spain and Italy as a cabinet officer taking a tour for his health. The members of the Wild West Show are looked upon as the courtiers in his train-typical American gentlemen.

New cures for consumption continue to be proposed, notes the Pathfinder. None has so far proved a specific cure, invariably successful or exclusively accepted. Consumption appears to be the worst enemy of man's health in this day, and it is probably increasing. It is these serious considerstions that are urging scientists to study more closely the pathology of the lungs. Nature abhors unhealth and as soon as we learn how to make the conditions right it will be as easy to reform a pair of lungs as to set a broken arm.

In Australia they are exploiting a whale cure for rheamatism, which is said to be effective, though disagree-It was discovered by a drunken man, relates the New York Press, who was staggering along the beach near the whaling station at Twofold Bay, and who, seeing a dead whale cut open, took a header into the decomposing blubber. It took two hours for him work his way out, and he was then not only sober, but cured of his rheumatism. Now, they say, a hotel has been built in the neighboring town of Eden, where rheumatic patients wait for the arrival of a whale in order to take blubber baths.

Only one lighthouse in ninety miles from Sandy Hook to Atlantic City, and several boats, including the liner St. Louis, have lately run on the beach in that stretch, exclaims the New York Dispatch. Only one lighthouse for the Long Island shore approach to Sandy Hood for sixty miles and over, where numerous wrecks are beached and strew the coast every year. Is the approach to the greatest barbor in the world properly protected considering the dangerous sands waiting to hold any craft unfortunate enough to get ashore and considering the enormous tonnage and its value that has to reach this port by running the gauntlet of the Jersey and Long Island sands?

CHAMBERLAIN'S SPEECH A SURPRISE

Many People Thrown Out of Work for Participating in May Day Demo strations-Lieut. von Versen Decorated for Bravery.

Berlin, May 10.—The temper Berlin, May 10.—The temper which dominant party in England dis-yed in the British house of commons Friday last has excited intense in on Friday last has excited intense indignation throughout Germany. The debate in the English parliament on the Transvaal situation was awaited here with probably as keen interest as was popularly manifested in England, and the tone of the advices reland, and the tone of the advices received here from London created a feeling of expectation that Mr. Chamberlain, the British secretary of state for the colonial department, would freely and fully admit the guilt of Cecil Rhodes and announce the decision of the government to treat him and his accomplices as criminals. This having been the general feeling German officials and the press and the public as well were astounded upon reading the precis or the speech delivered by Mr. Chamberlain which was telegraphed here from London where the colonial secretary minimized the outrage upon international law which the colonial secretary minimized to-outrage upon international law which had been committed by Rhodes, and suggested that the English govern-ment had found reasons justifying their defending Rhodes, Sir Hercules Robinson, governor of the Cape Colony, and the others who were direct or in direct accomplices in the attack made the Transvaal.

German Press Comment. The National Zeitung, in an article published on Eriday, contended that unless Mr. Chamberlain announced prompt and vigorous action on the part of the British government against Rhodes and his aiders and abettors England would lose prestige in the eyes of the world and Chamberlain eyes of the world and Chamberlain would show himself in the light of an accomplice. The National Zeitung's remarks, combined with the tenor of Mr. Chamberlain's speech, have revived reports that Chamberlain had guilty knowledge of Rhodes designs, which he does not dare to disclose. The Vossische Zeitung ridicules Mr. Chamberlain's professions of confidence in Sir Hercules Robinson and scoffs at the latter's pretended ignorance of Jameson's intended raid. The paper then goes on to praise the Transvaal government for its foresight in demanding rnment for its foresight in demanding explanations from England of the explanations from England of the gathering of British troops at Mafe-king, and declares that full explana-tions must be made. Most of the Ger-man newspapers quote with approving comments from a communication from Johannesburg which has been issued

Jonannesburg which has been issued by the Berlin All-Deutsche verbund, the pith of which is the statement that the Germans in the Transval are very bitter against the English and are joining the Boers. Result of May Day Demonstrations. The observance of May day by the workingmen has resulted in a number of troubles between the employes and the employers. Fifteen metal working establishments in Berlin have locked establishments in Berlin have locked out their men for-not-working on that day, and the men have since declared a general strike of metal workers unless they are granted a nine hour working day and an increase of 25 per cent. in their wages. Three thousand instru-ment makers have gone out on strike and 8,000 other workers at that trade have remained at work in order to suppor the strikers. The Hamburg cigar exporting firms have discharged all of their employes who did not work on the lat inst, and labor disputes of this character are general throughout the

It is not known here that the captain-general has done anything of the kind. The only thing that he has said about the case is that Consul-General Williams should be tried by a civil tribunal, as they were not bearing arms when canthey were not bearing arms when cap-tured. It is believed that the matter will be decided at a cabinet meeting to be held in Madrid. The British consul has presented a claim in favor of Kil-dea, the Englishman, who was captured on the Competitor. Great secreey has on the Competitor. Great secrecy has been observed regarding the proceed-ings in the case, and the fact that the men were sentenced to death has not been made generally public here. All that is said is mere talk.

Washington, May 11.—There are two contested election cases that will probably come up in the house during the week—Murray, rep., vs. Elliott, dem., from the first district of South Carolina, and Reinsker, rep., vs. Downing, dem., from the sixteenth district of Illinois. Both will be vigorously contested. A day has been promised to the committee on labor to discuss the Phillips labor commission and the Erdman arbitration bills. The former provides for the appointment of a comman arbitration bills. The former provides for the appointment of a commission to investigate the relations of labor to capital and the causes of the troubles that have occurred growing out of those relations. The Erdman bill is the Olney bill, which passed the house last session, and which the labor tunions have approved. The committees on immigration and naturalization and on interstate and foreign comon interstate and foreign com merce are each pressing for time in which to present some measures passed upon by them, notably the bills to furnished. ther regulate the admission of immi-grants. But it is hardly probable that grants. But it is hardly probable that they or either of them will get the floor. The determination of the sen-ate committee on appropriations is to keep that body constantly at the con-sideration of those measures during

Mr. Gorman has also indicated his intention of offering an amendment making a horizontal reduction in all making a norizontal reduction in an appropriations that exceed \$100,000. This will, in all probability, precipitate some discussion. According to the agreement made some days ago, the two days immediately following the passage of the river and harbor bill is to be devoted to the Dupont contested election case, with the understanding that at 5 o'clock on the second day the vote is to be taken. The whole time may not be consumed in ond day the vote is to be taken. In whole time may not be consumed in debating this case and a few speeches on general subjects may be delivered. Mr. Nelson of Minnesota and Mr. Gibson of Maryland have speeches ready to deliver on the immigration question. and they may find time to address the senate during these two days. The District of Columbia bill will be called up as soon as the Dupont case is out of the road. This will probably consume, the remainder of the week, much of the bebate doubtles growing out of the appropriations for the charities, over which there was a lively discussion in the house. The senate has restored all the items for this purpose stricken out in the house, and while the champions of the policy pursued by the house are not so numerous in the senthe action of the committee will cause the action of the committee will cause a number of protests, at least, to be raised. The fortifications bill will be reported by the end of the week. Mr. Allison expects to see all of the appropriation bills passed by the 20th and will make every effort to accomplish such a result.
