ONE BOLLAR A YEAR.

HAMILTON C. NORRIS,

Free wool and free silver are two! things the Republican party opposes in no uncertain terms....

ANDOVER, N. Y., June 24, 1896.

William McKinley, who, as every body knows, has been called the "advance agent of prosperity," having arriving in Jersey City at 6:00 a. m., been nominated for the Presidency, Sunday, returning same evening at 8:01 let us hope that he will be different p.m. The famous Wyoming Valley from almost every other advance Nyack Band will accompany the exagent in that he will perform all he advertised

Among the earliest dispatches recolved by Governor McKinley after his nomination was the following from Governor Morton:

The daily papers say that thous nuds of people are flocking to Canton, Ohio, to see William McKinley who Ohio, to see William McKinley who appears to be as great a magnet as was Francis Schlatter, the healer, at Denver a few months ago. Unlike the latter, Mr. McKinley will not decline to receive aid from his visitors. He wants votes, though, and not money. __

Senator Henry M. Teller of Colorado, who withdrew from the Republican National Convention because that body declared for a gold standard of money, was born in the town of Granger in this county and received part of his education at Alfred University. It is doubtful, however, if he imbibed any of his free silver ideas from this climate.

Queen Victoria last Saturday enfered upon the sixtieth year of her reign. If she lives to complete the year her reign will have been the longest of any British sovereign. George III. reigned 59 years and 96 days. Beyond the usual ceremonies of accession day there were no celebrations, these having been postponed until the end of the year, when there will be jubilee fetes similar to those held in 1837, on the occasion of the fiftieth year of her majesty's vejān_____

The action of the Lewis county Democracy last week, in declaring for free silver coinage, comes with surprising force to those who have la bored under the impression that silverism had no hold on the Democratic' or any other party in this State But additional interest and significance are lent to the incident, by the an nouncement that, in the county of Jefferson, it was only the personal influence of ex Governor Roswell P. Flower of Watertown, which restained the Democracy from taking similar action.

Grover Cleveland said, last week Tuesday, that he would not be a candidate for a third term as President. That is, his language is capable of that construction. What he actually no great political privilege than to Summer House Goods, R. the ranks of his party." In other words, he did not speak until he became convinced that be could not get the nomination, for Cleveland is a "gold-bug," and would therefore stand no chance of getting '
