Grant Duke, the Republican nominee for Member of Assembly, was visited at his home, in Wellsville, Friday evening, by his friends, to congratulate him on his nomination. Hon. Oscar A. Fuller offered some pleasant congratulatory remarks, to which Mr. Duke fittingly responded.

The Provisional Committee of the sound money Democrats of the West, have called a convention to meet in Indianapolis, Sept. 2d, to adopt a platform in opposition to that made at Chicago, and nominate candidates for President and Vice President. The name adopted for the new party is the National Democratic party.

Friday evening, after the Republican convention at Belmont, the friends of Hon. F. A. Robbins turned out in large numbers, headed by the band, and marched to his residence in Angelica, not to condole with him in his defeat, but to express their sentiments. Speeches were made by Frank S. Smith, D. P. Richardson, M. S. Blair and D. D. Dickson, and responded to by Mr. Robbins.

A GOOD ILLUSTRATION. The Steuben Courier says: "W. P. Sedgwick has placed in his store window the most practical illustration of the silver question which has yet been devised. On one side are ten silver dollars, good the world over for their face value, by reason of the credit of our Government. Underneath these he has a block of silver which is the melted product of ten silver dollars, and which in that form is worth just \$5.25. On the other side is a ten dollar gold piece, and underneath a piece of gold obtained by melting ten gold dollars. Both pieces of gold have the same value whether they bear the Government stamps or are a shapeless lump. On the silver melting, however, Mr. Sedgwick will have to lose \$4.75, as he can never get that block of silver which is worth only \$5.25 back into the shape where it was worth \$10."

PAST EXPERIENCE. In a recent speech, Thomas Reed said: "We have been through all this once before. The greenbackers of 1878 were not bad men. They were sincere, and had a better case than the silver men of today. We must have artificial inflation and cheaper money, they said, or blackest rain awaits us. Prices were low and work was scarce; taxes were high and debts hard to pay, but we persevered and resumed specie payments. From that moment the capital of the world was at our disposal. We had a good tariff which made us do all our own work, and from 1879 to 1893, 14 years of prosperity, placed the United States in a great position in the world. It was

Over Thirty Years Without Sickness.

Mr. H. WETTSTEIN, a well-known, enterprising citizen of Byron, Ill., writes: "Before I paid much attention to regulating the bowels, I hardly knew a well day; but since I learned the evil results of constipation, and the efficacy of AYER'S Pills, I have not had one day's sickness for over thirty years — not one attack that did not readily yield to this remedy. My wife had been, previous to our marriage, an invalid for years. She had a prejudice against cathartics, but as soon as she began to use Ayer's Pills her health was restored."
