

Twenty Years....

For more than twenty years we have been telling how Scott's Emulsion overcomes the excessive waste of the system, puts on flesh, nourishes and builds up the body, making it the remedy for all wasting diseases of adults and children, but it isn't possible for us to tell the story in a mere stickful of newspaper type.

We have had prepared for us by a physician a little book, telling in easy words how and why Scott's Emulsion benefits, and a postal card request will be enough to have it sent to you free. To-day would be a good time to send for it.

SCOTT & BOWNE, New York.

On The Shining Shore.

The summons of the death angel is always a fruitful source of sorrow and heartache, but doubly so when it comes unheralded by illness and all unlooked for, as it came to our fellow citizen, Mr. Daniel M. Metzger, last Sunday evening, at his pleasant and hitherto happy home on Church street.

About three years ago Mr. Metzger had a severe illness which unquestionably left his heart seriously affected, and acute symptoms of heart disease manifested themselves at irregular intervals. Last Sunday morning he attended divine service at the M. E. Church, of which he was a loved and valued member. He had also contemplated being present at the evening service, but when the hour came he informed Mrs. Metzger that he did not feel quite well—was not really sick, but rather more than usually fatigued—and the lady, under the circumstances, suggested that he remain away from the house of the Lord in which it was his delight to worship. He did so. Up to about six o'clock in the evening he sat on the piazza, nothing in his language or appearance indicating that his share of the world's work was so nearly done. Mrs. Metzger left the house for evening service at 7:30 and was absent just an hour. Upon her return she found her husband lying face downward upon the floor before the couch. Medical attendance was hastily summoned, but it only established the fact that he was dead. On more than one occasion he had intimated to his wife that he might die suddenly from heart disease.

Mr. Metzger was 67 years of age. He was born in Elmira, N. Y., and most of his life was spent in that city where, as a contractor and builder, he was widely and favorably known. Sixteen years ago he married Mrs. Sophia Davis, a daughter of the late Jason Hunt, of Andover. He leaves, besides his widow, an adopted daughter, Mrs. F. M. Johnson, of Philadelphia.

Mr. Metzger recently erected a residence in this village and removed here. Having been but a comparatively short time a dweller in Andover, he was not, perhaps, widely known; but all those who enjoyed his acquaintance—and all who possessed it enjoyed it—unite in saying that he was an eminently kind-hearted and even-tempered man, always wearing a cheerful smile, always ready to say a kind word or do a kind act; and all agree that he was an earnest and devoted follower of the Lord Jesus Christ.

The funeral services were held at the house this afternoon under the conduct of Rev. W. B. Wagoner. Interment in the Bundy Cemetery.

The Harvest Home's Festival.

The Twentieth Annual Harvest Home of the Presbyterian Society of this town was held in Maple Grove last Thursday. The weather in the early morning was cool, but as the day advanced it became warm enough to be comfortable in the grove. The attendance was not usually large, owing no doubt in great measure to the fact that there was a Republics mass meeting in Hornellsville and a reunion of the 1st N. Y. Dragons at Portage. The unusual acreage of grain fields and the fact that the harvest is earlier than usual, doubtless prevented the attendance of many who are generally present at the always enjoyable, always instructive festival which has become one

of the regular holidays of Andover. Let no one suppose that the attendance was so sparse that those present were compelled to resort to the telephone as a means of communication with each other—not a bit of it; several hundred persons enjoyed each other's society, the excellent music of the Excelsior Band, the eloquent addresses of the orators of the day and the meritorious dinner which the Presbyterian Society always provides upon such an occasion.

Rev. Dr. Daniel Redmond, Ph. D., of New York City, was the first speaker. He is graceful and easy as a speaker, always interesting, always instructive and always natural. He was followed by Judge S. M. Norton, of Friendship, who delivered an address abounding in practical suggestions and valuable for the amount of information it furnished on subjects rarely considered by the common people of our workaday world. Both addresses were well received. Indeed, those having the management of the Harvest Home never select as their speakers those who have not both the power and the will to instruct and amuse their hearers; and never in the history of the festival has there been an orator here who has not been well received.

The receipts were \$92.

An Opportunity.

In a town some hundred and fifty miles from Andover, there is a school than which there is none better. Many pupils from every county in the state, and often from other states, attend this school; but it is stated as a fact, that in the last fifteen years, among a thousand graduates, only about thirty of these were residents of the town. The town numbers about five thousand inhabitants. Why is it that so few of the townspeople take advantage of the school? I am told that this is true of most places where good schools are located. Why it is so is a question I have never yet heard answered. Is it true in our own town?

Our school opens Monday, Sept. 7th. We have a good school. Here is an opportunity for young men and young women to get, at their own homes, an academic education. Why not embrace it? In addition to the general course of study there will also be a department of music, consisting of instruction on the violin, voice culture, and chord drill. This course will be open alike to students pursuing regular studies in the school and to those not in daily attendance who wish to take the music alone. Violin lessons, \$5 per term of ten lessons; vocal lessons, \$10 per term of twenty half-hour lessons; class lessons in vocal culture, \$5 per term of ten lessons. (Classes not to exceed five, which will make the term of lessons for each student, \$1.)
