Convention of the Gold Democrats.

The National Democratic Convention convened at Indianapolis, Ind., last week. Senator John M. Palmer of Illinois, and Hon. Simon B. Buckney of Kentucky, two white haired veterans of the war, rival commanders of the

ident and Vice President on a brief but emphatic platform which repudiates the doctrines enunciated by the Chicago convention; indorses President Cleveland and his administration in glowing terms; declares for the gold standard, tariff for revenue only, liberal shipping laws, currency reform, civil service and economy in public expendi-tures. The spirit that dominated the convention is contained in this declaration of the platform:

"The Democratic party has survived many defeats, but it could not survive a victory won in behalf of the doctrine and policy proclaimed in its name at Chicago, and so, in the language of Mr. Hammond of Louisiana, this convention placed in the hands of the other nominees their banner and bade them fling it forth, sky ward and seaward, high and wide."

Both the Presidential and Vice Presidential candidates will be notified of their nomination in Louisville, Sept. 12.

About Andover Boys.

The Wellsville Reporter, in writing up Fair notes for Thursday of last week, has the following to say of the Citizens' Hose and the Euterpe Club of this village:

"The Citizens' Drill Corps of Andover arrived in town on trains 3 and 29 and were all reads to appear in their exhibition, but the rain prevented. The genial Andover boys were much disappointed at the day's failure, particularly in their inability to appear as advertised. Probably 500 people came just to see this exhibition of fancy drilling, and Foreman W. B. Buidy alluded again and again to how badly the boys felt in disappointing so many of their friends, who can of course blame no one but the weather."

the weather."

"The Main Hall, during the speech, was filled by people who couldn't get near enough to hear the oration. From the center platform, the Enterpe Glee Club of Andover were heard in college songs and melodies. They were warmly applauded, and responded to a number of encores. Their concert was thoroughly enjoyed by the crowd."

Did you ever run across an old home newspaper? Did it not prove extremely interesting as you read its columns of local news and home mention? As you look over its pages, the many seemingly trivial mentions carry with them a multitude of tender and pleasant associations, and you wonder that you prized the paper so little at the time it was printed, when you find it so full of interest after so many years. It is only when we get hold of some local paper and view its panorama of the past and reflect on what perfect mirrors of local events the papers are, that we begin to estimate their true value as recorders of current history and to realize how worthy of patronage is this collector and record keeper of the life and doings of the community which, from week to week and from year to year, are so faithfully portrayed.
