No kitchen is kept cleaner than the premises devoted to the manufacture of NONE SUCH Mince Meat. No housewife can be more fastidious in the matter of preparing food than we are in the selection and preparation of the materials of which it is made. The cleaning of the currants (for one thing) is more thoroughly done by means of perfected appliances, Z than it would be possible to do it by hand.

Its cleanliness, purity, wholesomeness and deliciousness are good reasons for using NONE SUCH Mince Meat. The best reason is its saving—of time, of hard work, of money. Although by no means the cheapest lamp in I the lot, one of the best bargains is unquestion ably a banquet lamp of solid brass, with a liftout oil fount, central-draft burner, onyx column or figure column, and Rochester glass chimney -complete with wick and everything except the oil for \$1.48. And there is one a little better for \$1.69, and one a great deal better for \$2.48, and beautiful gold lacquered lamps, with highly ornate open work bases, lift-out founts. filigree-work bowls, onyx columns with lovely markings, etc., complete with burner and chimney for \$3.98. And then come lamps still more elaborate and far more beautiful, with delf and hand-painted porcelain bases, very elaborate brass work, etc., at all prices up to \$20.

To match these lamps we carry a very large and complete line of the porcelain globes which retired from service the dangerous crepe paper shades and the shades of silk that were soiled almost in a night. These artistic globes are decorated in Dresden designs, Fleur de lis figures, gold designs, hand-painted landscapes and marines, etc. Some of them are marked a. low as 88c., while the more elaborate ones are worth several dollars.

Those who would literally "let their light h shine" the coming winter evenings will find these Wallace lamps a great boon to all who
