band of men equaling in heroism any than the dedication of this one.

Edison's fellow wizard, Nikola Tesla of New York, is said by the Electrical Review to have produced an electric light of wonderful brilliancy, by means of vacuum tubes which are not in mechanical contact with the electric source. That is to say, Mr. Tesla sits between the tubes and the exciting coil, and the light glows in the tubes without interruption. His device produces about 100 millions electrical vibrations in a second, according to his calculations, thereby making an exceedingly brilliant light.

A hostile critic of Joan of Arc has arisen in Paris. Joan was, M. Louis almost blamable feeling of patriotism. weary of feudalism, were trying France and England united under the sceptre of Henri IV., and broke the they continued under the same aceptre they would have formed the one great absorbing, over-ruling, and grandiose State of modern Europe.

FREE SHIP BILL. Navigation Commissioner's Report Urges the Passage of Such a Measure.

Washington, Nov. 16.—Despite the fact that there is no probability of either this congress or the next passing a free ship bill, the commissioner navigation in his annual report, just given to the press, refers prominently to the subject and urges the necessity for the passage of such an act. He invites attention to the fact that our which has just established a trans-Pacific steamship line, and with the cooperation of American capital is preparing to rapidly extend the service. Before our carrying trade is altogether lost, Commissioner Chamberlain anggests that congress inquire into the conditions of trans-Pacific transports-. Within the last five years Japan's sea-going steel steamers have increased from thirteen of 27,701 tons to fifty-three of 106.383 tons. The fuumber of American steel or iron steamers on the Pacific coast is forty. three of 68,825 tons.
