"A snake story that has the advantage of being true comes from town," said T. R. Tenney, of Strasburg, Va., at the Metropolitan. 'Some time ago the trainmen on the one train that runs on the branch of the Southern railroad of which Strasburg is the terminus brought in a snake with pink eyes. In shape and size it was a black snake. and experts pronounced it an albino of that species. It was exhibited at the

depot for several days, and a large crowd constantly gathered around it do not know what finally became of the reptile, but the fact that a purely white black snake was killed can be substantiated by any citizen of Strasburg or by the trainmen, who come into Washington every day."-Washington

THE BLUES.

A GRAPHIC DESCRIPTION OF THE DREADFUL FEELING.

Misery-Where Doctors Make Mistakes. When a cheerful, brave, light-hearted woman is suddenly plunged into that, perfection of misery, the BLUES, it is a sad picture.

It is usually this way: She has been feeling "out of sorts" for some time; head. has ached, and back also; has

slept poorly; nervous, and nearly fainted twice; head (() dizzy, and heart has

ARGUMENT.

If there is any reason why you should use any sarsaparilla, there is every reason why you should use Ayer's. When you take sarsaparilla you take it to cure disease; you want to be cured. · as quickly as possible and as cheaply as possible. That is why you should use Ayer's: it cures quickly and cheaply—and it cures to stay. Many people write us: "I would sooner have one bottle of Ayer's Sarsaparilla than three of any other ' A druggist writes that "one bottle of Ayer's will give more benefit than six of any other ' If one bottle of Ayer's will do the work of three it must have the strength of three at the cost of one. There's the point in a nutshell. It pays every way to use

Ayer's Sarsaparilla.
