With respect to manufacturing failures, the suggestions drawn from the returns DRY GOODS & MILLINERY, are less obvious, and, perhaps, less deserving of confidence as yet, owing to the peculiarly disturbed condition, of manufacturing industries during the past three years. It appears that in the iron manufacture a large aggregate of failures are more frequent in October and December than in other months. In machinery the larger aggregates appear more frequently in March and August, in woolens in October of each year, in cottons February two years out of three, in lumber in March and April, in clothing in October and March, in hats in December, and in chemicals in March and June. The aggregates in milling appear larger in December and June, in liquors in January and March, in glass in January.

OUR ROBBINS ON TRUSTS.

Last Monday the Assembly passed a resolution for the appointment of a joint committee to investigate trusts. Assemblyman Robbins made a most eloquent and incisive address, in the course of which he said:

"What we want is prompt legisla-

tion. If trusts exist, there is a lav to dissolve them and punish those engaged in maintaining them. We don't need remedial legislation for LUVICTUVE What we need is legislation to empower the Attorney General to investigate alleged trusts. A bill providing for this was introduced last year, but did not become a law. Another bill for the same purpose has l been introduced this year, and if it MAIN STREET. is enacted, the Attorney General can successfully conduct such investigamen, or wipe them out. Don't put bell. planks against trusts in your campaign platforms, and after election do your best to protect the trusts. Th man who introduces a bill against a corporation is not an anarchist, a demagogue, or a striker. We are honest in our fight. I don't want any particular credit for introducing an anti-trust bill, and I am perfectly willing to turn it over to any man who its passage.
