Andover, N. T., Feb. 8, 1897. By order of Committee

For the Andover News than the richest jewels of earth . Tis ever a bright and guiding star And of invaluable worth. As day by day we pursue
The path which leads to the heights of fame.
And all that is pure and true.

. This gem cannot be won without toil. And therefore all should be sure . To enrich, by labor, the mental soil Till many rich seeds shall mature-Seeds which the brightest of fruitage shall yield If planted with patience and care, And may they the emblem of purity wield. To raise all from sin and despair . The pathway which leads us on to success

Is not always pleasant to climb: In words which shall be too sublime. Then why should we idle our time away When there is so much to be done? For we can find plenty of work to do, For ourselves and for every one— Work which shall tend to make happy and glad Those who are weary and worn

And turn the heart's which were heavy and sad To gladness as bright as the morn , For we must not only be wise to gain This richest gem of the earth For others some gladuess and mirth The stairs upon which we all must climb. Are brightly lighted by a hand divine.

Upheld by righteousness Then let us climb upward with nimble feet, These stairs so high and so grand. And watch each day with Faith's telescope

About the Proposed Town Hall.

[The following letter from one of our citizens who will not authorize the publication of his name, explains itself.)

There seems to be a disposition on (somebody's part to work up a scheme to get the taxpayers to vote for money to build a town hall. I never heard anything about it till I saw it in the paper, and it said everybody who had anything to say one way or the other might say it in the paper. I never wrote for a paper before, but 1 am a taxpaver in Andover village and I pay claxes enough now these hard times. am just as proud of the fire company and what good it has done as anybody, but I think the taxpayers have d. ne spretty much what they can stand for ... them now, and I believe what was said was said for the good of the fire company, although the writer said it was not. These are awful hard times, and I don't believe the people who pay the biggest part of the taxes want them to be any higher just to accommodate a Will Knox, of Wellsville, is visiting few. We have got along well enough ahout places to vote, etc., and we have Wm. Dodge and family visited in been able to pay the bills without raising much extra tax to pay rent. Bu' if we go to putting up a costly building it will take a big tax, or maybe we will have to bond the town to do it. There are only a few of us who can pay our taxes now without finding it pretty tough work. If people look at this thing as they ought to they will say we can get along just as we are doing now without a splendid town hall or a place Mr. and Mrs. A. P. Wood visited to dry the hose. These things take money and money is hard to get. I say

let well enough alone and not spend so much money for what we can get along without for a while anyway. We can never afford to do all the writer of that now I hope we shall hear no more about
