American Iron and Steel Makers Invade British Home Markets.

| English Manufacturers Alarmed Over the Success of the Americans' Efforts---Labor-Saving Machinery Gives. Tankees the Advantage.

Pittsburg, Feb. 15.—British makers of iron and steel products are alarmed Action during this session of consociety coupled with requests that they eight hours notice. A number of dewhich investigated the operations of stated that tin plate bars have been stated that tin plate bars have been exported to the Welsh tin plate mills for se veral months and some of the tinned plates imported recently were made out of Amriican steel. Bessemer steel | billets nave been exported, and one Pittsburg firm is reported to have been recently shipping on an order for 20,000 tons of billets, which have been landed on the west coast of England at a price of twelve shillings below the local price. Other forms of iron and steel exported extensively are hardware, mechanical tools and various forms of machinery. Wages in American mills are more than double the wages paid in English mills for similar work. It is claimed that the higher cost of labor the most favored mills in Great Britain
