"We used wooden shoes at first and they worked very well, but now we According to our last census 3,981 persons over 100 years old were found, have something a great deal better. consists of a thin steel plate eight and of these 2,583 were women. In France in 1895 there were only sixty. Inches in the calks of the ordinary shoe. - The plate is fastened by a steel spring to the lower part of the hoof, and there is a nut on it so it can be screwed up tight with a wrench.

"On the bottom of this steel plate is ' a coating of India rubber, and this, by the way, is a great improvement in horse snowshoes. It keeps the shoe! free entirely of snow, whereas formerly snow used to clog and fill up on the plate. This would cause the horses to slip and flounder around. Even when the horses are fitted out with snowshoes for the first time they rarely ever fall, though, of course, they are usually steadied a little till they get the hang of things. We are careful not to select nervous horses. We_don't | want a horse that's too high-spirited. We rather prefer those that are quiet and not easily perturbed.

"The trained snowshoe horse can go | anywhere, no matter how precipitous the mountains are, or how deep the snow is. We tried for awhile making snowshoes out of aluminfor the horses. The metal was light, and it was thought for a time that it would be just the thing. But we found that the aluminum, unlike steel, would bend, so we The wheat product of Hungary is gave up the new white metal and stuck to the steel, using a thick rubber coating for the bottom."

Purifying a Room's Air, The air of a room may be purified in two hours by setting inside of it a widemouthed pitcher filled with pure cold water. In three hours at most it will have absorbed all the respired gases in the room, leaving the air purer by that much, but the water will be too filthy to use, if one but knew and see what it has taken in. It is estimated that a common pailful of ice-cold water will absorb in six hours one quart of carbonic acid, and several pints of ammonia from the air. For the purpose of purifing the air the water is all right. but don't use it to wash in or to drink. New York Directory. For those purposes use fresh water just drawn, or use from vessels that are laTready covered either by metal or china, or by several folds of cloth, like a clean towel. Care in the use of drinkas typhoid and other malarial fever-

Binghamton, Feb. 6.—Francis Harding living near Lilly Lake in this County, has made a discovery. ed in vain for a bit for several hours, when he happened to toss a quid of tobacco in one of the holes. Quick as a l flash it was snapped up and disappeared beneath the water. This gave him an idea, and pulling up one of his many hooks, he placed a piece of plug tobacco on it. Instantly there was a four-pound pickerel. Francis then dis-

A WOMAN'S BODY.

King's Experience. A woman's body is the repository of the. most delicate mechanism in the whole realm of creation, and yet most women will let it get out of order and keep out of

What Its Neglect Leads to. Mrs. Chas.

order, just as if it were of no consequence. Their backs sche and heads throb and burn; they have wandering pains, now here and now there. They experience extreme lassitude that don't-care and want-to-be-left-alone feeling, excitability, irritability, nervousness, sleeplessness and the blues, yet they will go about their work until they can scarcely stand on their poor swollen feet, and do nothing to help themselves. These are the positive fore-runners of serious womb complications, and unless

given immediate attention will result in untold misery, if not death. Lydia E. Pinkham's Vegetable Compound will, beyond the question of a doubt, relieve all this trouble before it becomes serious, and it has cured many after their troubles had become chronic.

The Compound should be taken immediately upon the appearance of any of these symptoms above enumerated. It is a vegetable tonic which invigorates and stimulates the entire female organism, and will produce the same beneficial results in the case of any sick woman as it did with Mrs. Chas. King, 1815 ers. The outcome of the whole busi- horses—those that are raised at high Rosewood St., Philadelphia, Pa., whose letter we attach:

"I write these few lines, thanking you for restoring my health. For twelve years I suffered with pains impossible to describe. I had bearing-down feelings, backache, burning sensation in my stomach, chills, headache, and always had "They get so accustomed to the snow- black speeks before my eyes. I was afraid to stay alone, for I sometimes had shoes that they don't stumble or fall at | four and five fainting spells a day. I had several doctors and tried many patall, and they like them so well that ent medicines. Two years ago I was so bad that I had to go to bed and have a Over 400,000 cured.
