Now it is said that the glow worm . possesses X rays. This is a case of the worm turning an old light on a new r There is probably no other commod 1

ity that the average man is more will. ing to give to his neighbors and more If sleeping, wake; if feasting, rise beunwilling to receive than advice. The reason for this may be easily seen. Advice is very frequently given in the wrong spirit, and it is probably monfrequently given by those who have neither the prerogative nor the ability. to give advice that is of real value. Advice given in the proper spirit and from an adequate source may be of very great value. Experience is a good teach . er, and it is necessary for us to experiment; nevertheless we cannot afford to learn everything by experience—we Seek me in vain and uselessly must be guided by the counsel of others. who have experimented for us.

Sionx City Journal: A French traveler in passing through this country was struck by the number of loafers who gather at railway stations when a passenger train is due. It may be remerked that a good many Americans have been struck by the same fact. However, all those who gather at the stations are not loafers, but many of them are fairly industrious people. French gentleman fancies. Perhaps available. some "reformer" will arise with a "remedy" for lossing. And now that our attention has been called to the matter by a distinguished foreigner. It may be that we shall soon have some legislation with a view to "solving the
