THE BIG SALE of the last few days goes down as a record breaker in our business history. We've had sales and sales, but none could compare in magnitude with this. Putting out goods in such large quantities has placed us on a buying footing that we never before enjoyed, and the stacks of new things that are coming now were purchased at prices formerly thought impossible. The multitude from all parts of the country that swarms our store is brought here by the all powerful lever of honest goods at low prices. Appreciating this fact we will continue to sell goods at lower prices than they can be bought for hereabouts, and this is how we can do it: Small expenses, small profits, large sales, and the cash in the drawer when night comes. While our bargains are not confined to any list, being thickly scattered all through the store, we will-match or beat the price list of any concern in Western New York. In our Boot, Shoe and Rubber stock we are especially strong, being exclusive agents for the best marufacturers. In leather Boots and Shoes our personal guarantee is behind every pair we put out; besides this, we give you your choice of several different lines. In rubber goods we buy in large quantities, an invoice of 60 cases arriving only a short time ago, and they are all honest goods, not a punched pair in the lot. When you see a little hole punched name is stamped upon them, they are worthless, having been damaged in
