WEDNESDAY, MAY. 11, 1898.

It is said that on the average, throughout England and Wales, one person in 78 is a Smith, one in 76 a Jones, one in 115 a Williams, one. 148 a Taylor, one in 162 a Davies and one in 174 a Brown.

The depopulation of villages is one of the complaints in Germany. Agricultural laborers are becoming so scarce that it is now necessary to import them for the harvest in large numbers from Russia.

discovered in Alaska, reports hav been received stating that petroleum is also found there. Analysis an tests show that the oil is of as high. grade as any from the Pennsylvania lake close to the ocean, while the surrounding mountains are full of coal. every evidence of a large supply.

The new Kearsarge is named after the old Kearsarge, but what was the

able mountain in New Hampshire and it is said that the mountain was named by juggling the name of discoverer and its first owner. Heze kiah Sargent.

A correspondent to the London Chronicle, who has been delving 1.

feet, and nearly twenty-five hundred ascend, and before it is possible to reach a place with sufficient room to

Sit here with me,

With pretty sparks

And talk to you.

The mother's eyes

Blue as the waves On Naples' shores: Her hair was brown, Like yours, too, dear, And rippled o'er 'As pink as ear.

Would find us still

Had spread in two.

Before the blaze

And here until

We'd sit, my child,

And talk of you.

'Tis you and I-

And list the purr

And talk of her.

Rests quietly-

Your mother sweet

Deep under the snow

But you, my pet,

From stormy skies:

Have her blue eyes!

When fall passed by:

She used to sit Beside me here, When nights were harsh And woods were sere-Ah! she was fair, Dear, very fair,

With firelight upon her hair! In addition to the mineral wealth, The black midnight The crumbling sticks wells. The oil was found in a large It was fed by springs, and there was
