A facetious paragraph-writer suggests that it will soon be necessary for some one to start a daily geography in order to keep up with the thanges going on in the world. might with as much justification have said that we need a daily history, a daily text-book in natural philosophy, for the same reason. Events now move so rapidly that any book of information gets out of date much more quickly than at any other period in the world's history. For the preston in geography rather than ... the daily geography that will chiefly con-

tern the rising generation. In an article on the closing century a writer in World's Work truly says: ' 'Although it has been the century o' the widest conquest, it has been the century also of the greatest tolerabecame in eras of meditation and authority. It has been the century o' heroic fact finding, the century of the v increase the freight traffic. emancipation of thought from mystery and dogma, and of the yielding
