Matever is an object of barter and sale . Le said, an article of commerce, and 沙龙ch an article for 400 years. It had been made the subject of taxation, and, indeed, had become more widely Excattered then any other vegetable Probably, he added, no other regetable And contributed so much to the com-Fort and solece of the human race. This being the case, it was entirely beyond the bounds to say that tobacco was! not an article of commerce. He then! took notice of the claim that cigarettes are an especially harmful form of

tobacco, and while he conceded that this might be the case, he remarked that this claim was of comparatively recent origin. Still, he held that cigarettes are as much a subject of state regulation as is liquor, and he further held that while no state law could prohibit importation in original packages | it was entirely competent for a legislature to regulate the sale because of the original belief in the deleterious rest of the article. There was a dissenting opinion of Justice Shiras. which the chief justice and Justice Brower and Peckham joined. They that congress has exclusive control of interstate commerce.

election came together in the year 1900. It is easy to obtain the true ratio between the copulation and the number of voters. The total registration in St. | Chronicle. Louis for the recent election was 136,-649, and the official census population is 575,238. The ratio is one registered voter to 4.20 inhabitants. actual rote of St. Louis was 124,937, the number registered but not voting! reaching 11.712. The ratio of the actual votes to population in St. Louis was ! 4.60. Missouri's total vote was 683,635. and its population by the census of you at the charity ball? 1890 is 3.166,605.
