The American Cereal Co of Chicago, one of the largest and best Milling companies in America, furnish us with an almost endless quantity of testimonials from the best stock and dairy farms in the country recommending the stock feed and wheat feed manufactured by this company. But better than those are the testimonials from our own farmers in this vicinity who have given these feeds a careful test and find that they get the best results from their use. We will gladly refer you to a great many farmers in this vicinity who are using these feeds and can tell you all about them. Another car of wheat feed has just arrived this week.
