thus freeing them from the bondage of the landlord system, under which, too often, the tenant does not receive a just share of the product resulting from his efforts. Arizona is supposed to be almost an unbroken desert, but in reality it has the largest unbroken pine forest In the United States, covering an area! of over 8,000 square miles. This timber ·is usually found at an altitude of between 5,500 and 7.500 feet. The total quantity of pine timber fit for sawing purposes within the boundaries of the :territory amounts to 10,000,000,000 feet, which can supply the needs of a populous state for more than a century.

A St. Louis man was chagrined because three street cars had passed him in the rain without as much as hesitating. He broke the window of the fourth car with a stone. It came to a standstill and he coolly boarded it and healthy sailor boy, and one that vote of 25 to 23. took a seat.
