the "butter centers," Chicago, Tarticularly, which is the great market for the Elgin dairy Feeling Against Butter. away, there is 8 good deal of feeling developing against process" butter, says an exchange of Wonderful Beauty of the that city. The public is protected pagainst oleomargarine and butterine

very largely by the compulsory labelling of imitation butters. Many of there imitations are not unwholesome, but the public has a right to know what it is buying and to be protected against paying 30 cents a pound for something worth 18 or 20. "Process" butter, however, is a different matter. It is in fact butter, originally good per- | 1s as Well Cared For as the Artishans, that has become rancid. Ten tie Features. years ago rancid butter went into the soan kettle. Now it goes into the steam churn in company with some nice,

be prepared to deny it as her own best brand. It goes into little wooden tubs **---and\_is\_sold** in large quantities as ""dairy" and "creamery"—the word but--ter is usually omitted from the labels. This doctored butter is not considered wholesome. In large cities there is so ; much "process" and imitation butter; on the market that the only way which the customer can be sure of getting the genuine butter is to buy! the article in the packages that are wrapped in wax paper and labelled, with the maker's name. Then, when you go home, melt a half-teaspoonful; in a frying pan. If it turns brown with a white scum on top, formed by the milk and salt present, it is butter. But if it melts like lard or suet, it is probably something else.
