William Waldorf Astor, who now the young king of Spain is a fine lad,

THE words education and citizen have been used so much in the recent series of articles, it may be well for us to inquire, What is Education? (Good citizenship we have already defined). Education.—Philosophically every one is educated by what he sees, hears, feels or does. Specifically it is the effort on the part of the instructor to draw out one's

intellectual and moral endowments—enconruging and training what is is the student to be and do the best for himself or herself. 'Hence the class, the teacher, in a word the school.

from Comelius, Pestalozzi and Froebel, and Colonel Parker and some of our best modern educators say that the class idea in a measure must be lost sight of, and the Education
