To the Philippines the exports in 1897 were 394,597, in 1899 they were \$404,103, in 1900 \$2,640,449, in 1901 \$4,027,064, and in the full fiscal year of 1902 will be 350 viully \$5,000,000. To Alaska the shipments in 1894 were, according to the best figures that the bureau of statistics have been able to obtain, \$3,924,-000 and for the calendar year 1901 \$13,500,000, and for the fiscal year just ended will probably be \$15,000,000.

This would bring the total sales of American goods in the noncontiguous territory of the United States up to about \$50,000,000 in the last fiscal year against about \$10,000,000 in that same territory in 1897, which is a rectivigood showing.
