WHAT WE ARE,

Epicitus said, "Difficulties tell what men are," and how true it is nothfore been made except by a few cities thing else draws the fiber and strong mind from a man as the difficulties that h Difficulties present themselves. The rural life in our vicinity, its difficulties of preparing the ground and fighting against the obstacles

that come, have made the strong minds, hard sense, home velot. One may feel sure that the mental assistance is being rendered by loving people of the old Allegany hills, what they are, and if the men who warmth of the Boer leaders' reception many individuals and organizations, are active in the harness to-day count on character, integrity and honest ro rests upon something more substantial and details are worked out through ex- bustness, it's the inheritance from the forbears that gathered it from the diffi-

Then they help us. Take the difficulty of endeavoring to lift oneself) only the joy of success were involved, parison and study the geological sur- above the daily round of toil and struggle (and because one has to fight for a merely the final adornment of a tri- some detail methods of procedure to Practicability living one need not lose the sense and love of the beautiful), beauty of nature? If so, the very fight we may have in to costermonger, and the spontaneous | chemical and bacteriological examina- | bringing self back to the beautiful may broaden vision, make us see what we |

A man or woman who loves the flowers, who spends time over their growth, who adorns the table, who watches the changes, and who has his little patch, never grows old. The years may pass, but the heart keeps beating time to the music of youth. And what is more beautiful than youth? And yet there are front yards But this is not a matter of record, tion with eminent hydrographic engl. allowed to grow wild. A little patch in the corner for mother to work. Get the family at it. The boys and girls. It gives thought. It makes the stern

M. Tissot, the artist, is dead. No man ever moved the art loving world is one of the good things you cern in WESTERN manily and loyal attitude of the Boer purity of the water supply of the companies of the Boer try cannot be too strongly urged. The as he. He loved the beautiful. He loved religion. The central figure of may have if you take the NEW YORK. Can religious life is the "Christ." He wanted a Christ he could opportunities offered you to see. Hoffman, Angelo, others had an ideal. He wanted a get it. We have a stock of get an article of practical. Difficulties? Yes. But he went away. Three beautiful pianos and organs years he stayed in Palestine. He drew his pictures, his colors from Palestinian which we would be very glad Boers that they may count upon the generosity of their conquerors. Altogether England's reception of the Boer

All argument both for and against landscape beauty. The fishermen of Palestine became the types upon which the practice of smoking may be adduced from the story of the Mount he drew. He brought the imagination of the Christian world to the real.

But the beautiful should be thought of. The child in the school should may have one of them. box of good cigars. Though a very be trained to love it. Take the cheap, excellent "Perry pictures." Let the Think this over, and come child into the life of the artist. Study the subject of the and see what we have to picture. Make it a real living thing in the mind of the pu- offer you. ple. But one says the difficulty. Practical men, who cannot who scared the burglar away and thus see, govern many of the district schools. Yes, but a few pictures hung on BALDWIN'S MUSIC STORE, saved himself from being robbed. Now, the bare walls will soon catch the eye and fancy, will create a love for art

Now soon, school life, with all its problems and difficulties for the youth "nearly two dozen men, some of whom terprise instead of being obliged to and children, will have commenced. We hear to-day there is no chance for were among the oldest and most population before having accomular servants of the road, were displished his purpose. On the other
